AASHE STARS Letter of Affirmation
Pre-Submission Review

To Whom It May Concern at the association of the advancement of sustainability in Higher Education,
In October 2022, Fadwa Baladi, director of the department of sustainable development at Mohammed VI Polytechnic University (UM6P), contacted me to review the second UM6P STARS submission in order to make sure that the UM6P report respects Stars requirements.

I have been involved in sustainable development for more that 20 years as university professor in environmental sciences as well as researcher (300 papers in international peer reviewed journal) and as Executive Vice-president of University Laval. During my mandate as Executive Vice-president of University Laval, I implemented, in 2015, Stars accreditation and we obtained the gold level.

After reviewing UM6P submission three times, I can attest that all identified issues in the report have been adequately addressed and respect, to my point of view and using STARS Review Template, Stars criteria.

Please feel free to contact me at Eric.bauce61@gmail.com if you need further information concerning my review of UM6P submission.

Best regards,

A handwritten signature in black ink, appearing to read 'Eric Bauce', with a stylized flourish at the end.

Eric Bauce, Ph.D, *DHC*

Advisor at the sustainable development department at UM6P
President of SCS consulting inc.
