

PROCUREMENT POLICY

PURPOSE

Brock University is committed to obtaining the best value for the total acquisition cost of all goods and services purchased. To facilitate and encourage the timely purchase of goods and services, and to ensure its commitment to accountability, transparency, efficiency and equity, the University has adopted the following procurement policy. This policy also ensures that Brock University is compliant with the Ontario Broader Public Sector Procurement Directive and meets the requirements of the Canadian Free Trade Agreement (CFTA) and the Comprehensive Economic Trade Agreement (CETA).

This Policy establishes the authority of officers and employees to authorize and execute transactions with respect to supply chain related activities. It is designed to ensure current legislative requirements are met and an appropriate level of control and accountability with respect to supply chain related activities.

This Policy acknowledges that it is the role of the officers and employees of the University to implement the Board of Trustees' decisions. The ethical, efficient and accountable management of supply-chain related activities within the organization and the need to respond to various supply-chain related issues in a timely fashion makes it appropriate for the Board to delegate certain administrative powers and duties to officers and employees of the University subject to oversight by Procurement Services.

The Board has ultimate authority in all matters at all times. In the event of a conflict between the terms of this Policy and a specific resolution of the Board, the resolution of the Board prevails.

SCOPE

This Policy applies to all employees of the University and the Board of Trustees

This Policy Applies to any acquisitions of goods and services for University activities by University employees and the Board of Trustees

Consistency and Contradictions

Where there may be apparent contradictions between this policy and other legal requirements to which the University is subject, every effort should be made to interpret both this Policy and the other requirement in a consistent and harmonious manner.

If any provision of this Policy is found to be inconsistent with the provisions of a collective agreement, the collective agreement will prevail, unless the Policy provision is required by law, in which case the Policy provision will prevail.

Where funding for a purchase is provided by a funding agency, a more stringent set of approval requirements may be used at the discretion of the funding agency. If the funding agency approval requirements are more stringent than this Policy, the funding agency requirements will prevail.

The provisions of this Policy apply only to the extent that such provisions (or any one of them) are not prohibited by law including directives received from the Province of Ontario. If any provision in this Policy is held to be invalid, void or unenforceable by a court, arbitrator or government agency, then the remainder of the Policy, as the case may be, shall not be affected, impaired or invalidated, and all provisions not invalidated, voided or rendered unenforceable shall be valid and enforceable.
