#### 4. Sustainable mobility plan

#### 5. Bike parks

**Description:**

1. Charging parking for private and public vehicles - sustainable mobility, PMES.

The Sustainable Business Mobility Plans, MES Plans, arise as an initiative of the Metropolitan Area of Valle de Aburrá, Antioquia for organizations to reflect on the impacts of their collaborators' trips and implement strategies that contribute to improving mobility, quality air, health and quality of life of the inhabitants of the metropolitan territory.

This strategy is part of the Comprehensive Air Quality Management Plan - PIGECA del Valle de Aburrá, a metropolitan roadmap that includes air quality goals through joint work between the different actors that cohabit in the territory, both institutional, such as public and private

2. Using renewable energy for electricity reducing purchased electricity
3. Ride share designed to encourage commuters to adopt healthy and sustainable transportation options. (Carpool)
4. Bike parks: Cycle park with availability of electric charge and basic maintenance tower for bicycles.
