

COLLEGE OF
Saint Benedict
Office of Sustainability

April 11, 2013

To whom it may concern:

This is to certify that the Sustainability Student Network is now up and running at the College of Saint Benedict. This is due to the hard work of two students, Megan Coleman and Amanda Wicker. Currently there are 12 students in the Network. Involved offices include the library, bookstore, campus recreation, campus ministries and the history department.

Thank you for consideration of this effort for an innovative credit for STARS.

Sincerely,

Judy Purman

Director of Sustainability
