RE: Composting Affirmation

This letter is to confirm that Emory has successfully integrated the diversion of animal bedding and research mortalities from its facilities to Greenco's composting facility. The program was launched on November 1, 2009 and has successfully continued and expanded to date. Greenco is excited by the effort put forward by Emory to ensure the current and future success of the program. Should you require any further information, please do not hesitate to contact me directly.

Sincerely,

Tim Lesko
Greenco Environmental, LLC
