

November 5, 2012

Association for the Advancement of Sustainability in Higher Education  
213 ½ N. Limestone  
Lexington, KY 40507

To whom it may concern:

This letter is to confirm the accuracy of the Innovation Credit #1 for the NMSU STARS report for our Architecture Camp summer class. I have checked the information contained in the report and the facts are all correct.

The Architecture Camp has been very successful over the last three summers. Focusing on green buildings is a large part of the class, but we don't stop at buildings. We ask the students themselves to be aware of their personal actions according to sustainability principles. The parents take part in this awareness as well with their active participation. It is with pleasure that we have an innovation credit for this great program to add to our commitment to sustainability in the 2012 STARS report.

Sincerely,

A handwritten signature in blue ink, appearing to read 'L. Rios', is written over the printed name.

Luis Rios, Professor  
Pre-Architecture / Drafting & Design Technologies  
Dona Ana Community College
