

AASHE STARS Letter of Affirmation
Pre-Submission Review

February 28, 2023

To Whom It May Concern,

In November 2022, Alex Davis, Assistant Director - University Sustainability Practices, Arizona State University (ASU), contacted me to discuss the opportunity of improving each of our STARS reports by utilizing the STARS Review Template.

After performing a first and second review, I can attest that all identified issues in the report have been resolved and ASU is worthy of the Platinum designation. The review process also shed light on some areas for improvements in the STARS methodology which I will share with a member of the STARS committee.

Please feel free to contact me at bbentzin@fm.ucla.edu or 602.689.2598 with any questions or concerns.

Sincerely,

Bonny C Bentzin
Deputy Chief Sustainability Officer
University of California, Los Angeles
