## \*1. Informed Consent for Sustainability Survey

You are being asked to participate in a survey about sustainability to help better understand the nature, functioning, and valued practices of sustainability on CSU Chico campus. This survey will help us understand how to teach sustainability across the curriculum better.

All students who agree to participate in the survey are assured that their identities will be fully protected. Names of students will never be collected. Student ID numbers will be used only to look at past courses taken by students. Write-ups of the study will never use names. You will encounter this survey multiple times.

If you agree to the survey, the data will be kept in a password protected computer in the Institute for Sustainable Development, an office which remains locked and can be accessed only by researchers, the program director, or the program's Administrative Assistant.

Participation in this survey is strictly voluntary. There is no risk for participants. There is no penalty should you choose not to participate, and you may withdraw your consent to participate at any time without fear of penalty.

If you wish further information about the research project, please contact the Institute for Sustainable Development at 530-898-3333, email at sustainability@csuchico.edu or contact the Director Dr. James Pushnik at jpushnik@csuchico.edu

I have read this informed consent form. I agree to participate in the study, and I understand that there is no direct benefit owed to me due to my agreement to participate. I understand that I may reverse my decision to participate in the study at any time.

| * Required |  |
|------------|--|
|------------|--|

I have read this informed consent form and agree to take the survey.

\*2. Please enter your student ID number. This is the number on the back of your Wildcat ID.
