

Sustainability is 24-7

FOOD

CSA Membership

Get a weekly CSA bushel of fresh produce from Laurier's on-campus 14,000 sq ft urban micro farm with Young City Growers.

Farmers' Market

Visit the Farmers' Market table every Wednesday in the concourse!

Fair Trade Coffee

Grab Laurier's custom blend BYTE 75 Fair Trade coffee from the Lazaridis Hall café.

GET INVOLVED

Sustainable Hawk Fund

A \$20,000 seed fund to help get your sustainability ideas off the ground.

Ecohawks

Volunteer with this campus group to raise awareness for sustainability.

First Year Sustainability Council

Get involved in campus sustainability issues right in from your residence!

TRANSPORTATION

Bikeshare

Explore KW by zero-emission pedal power with a CAB Bikeshare bike—look for the orange bikes!

Community Carshare

Access to a car without having one with the Community Carshare—pay as you drive!

Bike racks

With secured bike storage and racks across campus, your wheels are safe!

Carpool

Heading home or to another campus? Carpool through TravelWise and the Rideshare Laurier Facebook Group!

Transit (GRT)

Your Onecard doubles as a free bus pass! Use it to do groceries and to explore the Region—check out one of the Region's many parks or markets!

ENERGY

Energy Dashboard

View the dashboards in the Science Atrium and the Concourse to see your residence's live energy use. Each spring we pit the residences against each other to see who can reduce the most energy. In 2015, first year students collectively saved \$20,000 in energy use!

WASTE

Water Refill Stations

Laurier is a water bottle free campus! Bring a reusable bottle—you're always close to a water fill station. To date we've prevented over 1,000,000 bottles from the waste stream.

Eco Container

Use your Eco-Card to grab food in a reusable container to reduce waste with every meal.

Recycling & Organics

Help us reduce our waste going to landfill through proper sorting. You're never far from a recycle and organics station!
