

Kean University Student Beliefs and Perceptions about Climate Change

IRB #23-011809

Consent

Hello!

You are invited to participate in a research study. This study will help us understand your knowledge and beliefs about climate change as an issue of sustainability. While participating may not benefit you directly, it will help us better understand how Kean can become a more sustainable university.

Your participation is completely anonymous. Your name, email, and IP address will not be automatically recorded. You do not have to participate in this optional research. You can simply choose not to take part. Declining to participate will not negatively impact your grade in any class. You are free to leave the study at any time, without penalty to you.

The online survey takes about 15 minutes to complete. There are four parts. You may begin the survey, stop, and restart at any time. You may only take this survey once.
