To Whom It May Concern:

As the Federal Compliance Officer for Anne Arundel Community College (AACC) and standing member of the college's Diversity Committee, I affirm that AACC's Diversity Committee represents an innovative sustainability initiative worthy of favorable recognition by AASHE.

Anne Arundel Community College continues to create and foster an inclusive college campus and a spirit of community. Towards this end, AACC created the Diversity Committee. Members of the Diversity Committee represent multiple areas of the college, including students, faculty and staff whose specialties range from direct support to administrative responsibilities. The Diversity Committee is responsible for managing AACC's comprehensive Diversity Plan and provides student groups with monetary incentives to support diversity events and activities. (For more information, see <http://www.aacc.edu/aboutaacc/diversity.cfm>.)
