Dear AASHE STARS Review Committee:

In 2008, Dickinson College announced an initiative to make the study of sustainability a defining characteristic of our institution. Since that time, we have been working diligently as a community to integrate sustainability in all facets of college life by encouraging, developing and implementing sustainability initiatives in our curriculum, scholarship, campus operations, governance, finance, campus culture and community engagement.

After submitting our first Sustainability Tracking Assessment and Rating System (STARS) report and receiving a gold rating, we certainly know what a useful accountability tool this can be for Dickinson. We look forward to STARS's continued assistance as we move forward as an ever more sustainable community.

Thank you for your good work at the Association for the Advancement of Sustainability in Higher Education. It is with great pleasure and pride that I submit this report as an accurate reflection of our sustainability work on the Dickinson College campus.

Sincerely,

Nancy A. Roseman
President and Professor of Biology
