is committed to environmental responsibility by using
Buckeye Green Seal® Products

Angel Castiblanco, Field Sales Manager

Lyndon Bleeker, VP Director of Sales

September 1, 2010

Date

Scott Criswell, VP Director of Marketing

The Green Seal® Certification Mark is awarded to products that are better for the environment in their usage. In order for products to earn Green Seal certification, they must perform well in a strict evaluation process and meet the environmental standards. Utilizing innovative chemistry, Buckeye products not only meet Green Seal formulation standards, they also exceed performance expectations of other "Green" products.
