Re: The University of Saskatchewan's STARS submission

Dear AASHE STARS Steering Committee,

On behalf of the University of Saskatchewan, I am pleased to submit our data for the Association of Advancement of Sustainability In Higher Education's STARS (Sustainability Tracking Assessment and Rating System) benchmarking tool. The information submitted has been carefully collected and researched to ensure that it accurately reflects the sustainability work being undertaken at the University of Saskatchewan.

My colleagues and I are proud of the advances our university has made in regard to sustainability in recent years, but we acknowledge that we must continue to strive for improvements in all areas of our campus life – education, research, operations, governance and community engagement.

The STARS Report has been compiled by those responsible for their respective content areas. Accordingly, I confirm that the information submitted is complete and accurate to the best of our knowledge and ability.

Sincerely,

Peter MacKinnon
President
