

July 11, 2011

To Whom It May Concern,

Very few urban chicken projects are in place at colleges. Students involved in the Macalester Urban Land and Community Health (MULCH) student group successfully wrote a proposal for urban chickens, developed a plan for chicken care, and started the program in spring, 2011. The project is innovative as it will be a model for other colleges interested in local foods and urban chicken keeping.

Sincerely,

A handwritten signature in blue ink, which appears to read "Suzanne Savanick Hansen".

Suzanne Savanick Hansen, Ph.D.
