UC Santa Barbara Innovation Credit Letter

Dear Colleagues,

As the Co-Chair of the University of California, Santa Barbara Sustainability Change Agent Waste Team, it is my pleasure to offer my affirmation of the “UCSB Grounds to Grounds” Program that meets the AASHE STARS Reporting Framework for Innovation credits. This project is a wonderful example of the excellent collaboration that takes place on our campus across typical boundaries. As you may realize, coffee grounds used on this scale add up to a lot of weight on an annual basis. This is a very successful program that we are very proud of.

Please feel free to contact me if you have any questions on the submittal of this information.

Best regards,

Mo Lovegreen
Co-Chair, Sustainability Change Agent Waste Team
