

Loyola Marymount University- Indoor Air Quality Protocol and Contacts

Environmental Health and Safety (EHS) ensures that LMU is in compliance with local, state, and federal health and safety regulations. EHS works closely with Public Safety, Human Resources, Student Health Services, academic departments and other groups. As such the Indoor Air Quality Program is as follows.

1. EHS's protocol on Indoor Air Quality includes monitoring and inspecting the student housing areas and shared spaces as required by a regular assigned interval with multiple monitoring tools.
 1. HVAC systems are required to meet ventilation requirements per the latest versions of California Title 24 and ANSI/ASHRAE Standard 62.1 Ventilation for Acceptable Indoor Air Quality.
2. Complains about indoor air quality can be made to the Facilities Management Help Desk or Public Safety.
 1. Procedure for Urgent IAQ Needs. (Contacts for issues)
 1. Facilities management help Desk
 1. For urgent problems. contact our Quality Assurance team at 310-338-7779 or x87779.
 2. We're open Monday-Friday, 7:00 am-6:00 pm.
 3. Our office will generally follow the University calendar and observe all LMU holidays. Please note that we have staff available around the clock to respond to urgent maintenance issues.
 2. Public Safety
 1. After hours, please call Public Safety at 310.338.2893 or dial x82893
 3. Complaints Referred to LMU's Certified Industrial Hygienist for investigation. Any issues that are discovered lead to the following of numerous action plan options by the CIH to quickly and effectively address the issue at hand.
