2012	F1	ART 1001 01	Drawing From The Environment			1	
2012	S1	ART 1002 01	Drawing from the Human Form			1	
2012	F1	ART 1015 01	Foundations in Studio Art			1	
2012	F1	ART 2002 01	Art History II: Gothic - Dada			1	
2012	F1	ART 2021 01	Intro to Painting			1	
2012	S1/F1	ART 2037 01	Ceramics I: Hand-Building			2	
2012	F1/S1	ART 2061 01	Photography: Analog Media			2	
2012	F1	ART 2093 01	Stone and Wood Carving			1	
2012	S1	ART 3015 01	Ceramics II: Wheel Throwing			1	
2012	F1	ART 3020 01	Ceramics III: Low-fire Techniques			1	
2012	F1	ART 3027 01	SSP: Painting Color Theory			1	
2012	S1	ART 3032 01	Intermediate Painting			1	
2012	F1	ART 3047 01	Studio Sem Sculpture: Portrait			1	
2012	S1	ART 3061 01	Studio Seminar in Photography			1	
2012	S1	ART 3062 01	Digital Photography			1	
2012	S1	ART 4005 01	ST in Hist/Theory: Contemporary Art			1	
2012	F1/S1	ART 4016 01	Senior Exhibition/Portfolio I			2	
2012	F1	BIO 1034 01	From Fins to Fingers			2	
2012	S1	BIO 1036 01	Solar Powered Life: Bio of Plants			1	
2012	S1	BIO 2015 01	Cell Biology			1	
2012	S1	BIO 2023 01	Human Anatomy			1	
2012	F1	BIO 2025 02	Ecology		1		Includes units on biodiversity and the preservation/restoration of biodiversity.
2012	F1	BIO 3012 01	TOB: Mammology			1	
2012	F1	BIO 3013 01	Botany			1	
2012	S1	BIO 3073 01	Animal Behavior			1	
2012	S1	BIO 4005 01	ST: Soil Ecology		1		Includes units on the response of soil microbiology to climate changes and on the importance of microbiological communities to agriculture.
2012	F1	BIO 4015 01	Biochemistry			1	
2012	EF/EC	BIO 5010 01	Natural Systems Ecology	3			Includes units on biodiversity and the preservation/restoration of biodiversity.
2012	EB	BIO 6040 01	Conservation Biology	1			Focuses on conservation and biodiversity.
2012	EF	BIO 6050 01	Conservation Genetics		1		Includes units on the importance of genetic diversity for maintaining viable populations of organisms.
2012	ED	BIO 6073 01	Field Botany			1	
2012	EA	BIO 6074 01	Forest Ecology	1			Focuses on knowledge necessary to manage forests sustainably.
2012	EC	BIO 6082 01	Biogeography		1		This is an advanced course in the study of historic and current organism distributions. It treats both the patterns of these distributions and the possible causes suggested by these patterns. Because causes of distribution range from geologic to evolutionary processes, the study of biogeography is necessarily very broad, therefore, this class examines questions of distribution in historic, evolutionary, ecological, and geological perspectives. The last segment of the course is devoted to the role biogeography plays in conservation of species and systems.
2012	S1	BUS 1003 01	ST: Intro to Sports Management			1	
2012	F1	BUS 1073 01	Managing for Sustainability	1			
2012	S1	BUS 1125 01	Sustainable Marketing	1			
2012	S1	BUS 2001 01	Accounting: Multiple Stakeholder		1		Includes a unit on how external users of financial, social, and environmental information interpret reports when evaluating an organization.
2012	K3/F1	BUS 2045 01	Entrepreneurship I		2		A course in the sustainable business major which threads sustainability through every course. Includes substantive discussion of the role of sustainability in entrepreneurial ventures.
2012	F1	BUS 3000 01	Junior Seminar: Paths to Innovation		1		Required course in the sustainable business major which threads sustainability through every course.
2012	S1	BUS 3008 01	Sustainable Financial Management		1		Required course in the sustainable business major which threads sustainability through every course. Students learn how firms' technology, processes, relationships, and management systems can enable it to serve more effectively its markets in an environmental and socially-responsible manner.
2012	S1	BUS 3040 01	Operations Management		1		
2012	S1	BUS 4022 01	Managing for Sustainability Cpstn		1		
2012	S1	BUS 4045 01	Entrepreneurship II		1	1	A course in the sustainable business major which threads sustainability through every course. Includes substantive discussion of the role of sustainability in entrepreneurial ventures.
2012	BB/BF	BUS 5020 01	Sustainable Organization Management		2		
2012	BC/BG	BUS 5030 01	Org Behavior in Sustainable Orgs		2		
2012	BE	BUS 5045 01	Sustainable Operations Mgt		1		
2012	BD/BH	BUS 5050 01	Sustainable Marketing	2			
2012	BF	BUS 5060 01	Stats/Quan Meths for Sus Org Mgt		1		

yr_cde	trm_cde	crs_cde	crs_title	Sustainability Course	Includes Sustainability	N/A	Description (how it relates to sustainability)
2012	BG	BUS 5070 01	Stakeholder Eco & Corp Perf Mgt		1		Required course in the sustainable business MBA; focuses on triple bottom line assessment of corporate performance.
2012	BH	BUS 5080 01	Accounting for Managers		1		Required course in the sustainable business MBA; focuses on triple bottom line assessment of corporate performance.
2012	BB	BUS 5090 01	Ethical Issues & Legal Environment		1		This course examines how the legal environment shapes managerial decision-making and the ethical issues that emerge. Topics include the regulatory environment, contracts, business torts, partnership and corporations, anti-trust, environmental law, employment law, and ethical considerations in business from a stakeholder theory perspective.
2012	BC	BUS 5110 01	Financial Measures of Value Added		1		This course examines the principles of finance and financial techniques for effective management decision-making in the organizations that follow a triple-bottom-line approach. The focus is on understanding and analyzing financial information such as carbon credits and stakeholder issues and integrating them into effective financial decisions. Topics include forecasting; green investing; cash and capital budgeting; working capital management; non-profit metrics, carbon credit and similar markets and risk management.
2012	BD	BUS 6010 01	Leadership, Values, and Decision Ma		1		This course explores issues surrounding how and why senior leaders set and deploy organizational values, short and long-term directions, and performance expectations that achieve sustainable organization practices. The focus is on leadership approaches, organizational learning and social and environmental stewardship.
2012	BE	BUS 6020 01	Competitive & Strategic Management		1		This course examines classic competitive strategy frameworks and the application of these frameworks as well as emerging strategy for sustainability frameworks in the development and implementation of competitive strategy.
2012	F1	CHE 1021 01	General Chemistry I		1		Includes unit on green chemistry; all labs in accord with green chemistry principles.
2012	S1	CHE 1022 01	General Chemistry II		1		Includes unit on green chemistry; all labs in accord with green chemistry principles.
2012	S1	CHE 2021 01	Organic Chemistry		1		Includes unit on green chemistry; all labs in accord with green chemistry principles.
2012	F1	CHE 2022 01	Organic Chemistry II		1		Includes unit on green chemistry; all labs in accord with green chemistry principles.
2012	S1/F1	CLC 1000 01	Introduction to College Math			2	
2012	F1	CMJ 1011 01	Intro Mass Communication			1	
2012	F1	CMJ 2055 01	Graphic Communication			1	
2012	K3	CMJ 2125 01	Prof Comm & Presentation			1	
2012	F1	CMJ 3013 01	Communications Wrkshp: Social Media			1	
2012	F1	CMJ 3025 01	Environmental Communication		1		Students research and create an environmental communications campaign and study principles of environmental advocacy.
2012	S1	COM 2010 01	Group Communication & Leadership		1		Students learn how to lead and be an effective member of small groups and the role of communication in effective group problem-solving.
2012	S1	COM 2011 01	Online and Digital Design			1	
2012	S1	COM 2013 01	Writing for Media			1	
2012	S1	COM 3013 01	CW: Nonprofit & Community Media			1	
2012	EF	COM 5010 01	Environmental Photography		1		Explores the role of photography to communicate environmental issues and motivate others to change behaviors.
2012	EB	COM 6040 01	Environmental Communication		1		Students will identify mechanisms and professional practices required to communicate environmental and science policy issues. Case studies of key environmental issues in various bioregions and organizations will provide a sampling of communication models, including informational and public policy reports, objective and persuasive media reporting, and advocacy campaigns. Students will research and conduct an environmental communications campaign that incorporates public policy and planning processes, assessment of scientific data and claims, and audience analysis.
2012	ED	COM 6050 01	Professional Writing & Advocacy		1		Teaches persuasive writing for environmental causes.
2012	EF	COM 6070 01	Grant Writing Workshop			1	
2012	EC	COM 6075 01	Science Writing Workshop			1	
2012	F1	DRA 1003 01	Acting I			1	
2012	F1	DRA 2037 01	Seminar: The Art of Design			1	

yr_cde	trm_cde	crs_cde	crs_title	Sustainabi lity Course	Includes Sustainability	N/A	Description (how it relates to sustainability)
2012	S1	DRA 3001 01	History of Theater: Subversive Art			1	
2012	S1	DRA 3017 01	Playwriting Workshop			1	
2012	F1	ECO 2003 01	Econ: Mainstream/Alt Perspectives			1	
2012	S1	ECO 2023 01	Economics of the Environment	2			Focuses on problems with neoclassical economics and accounting for social and environmental impact and alternative approaches to economics that promise to incorporate such impacts.
2012	F1	ECO 3002 01	Intermediate Macroeconomics			1	
2012	S1	EDU 1000 01	Intro to Environmental Education	1			Students learn about the history, impact, and trends in educating about the environment.
2012	F1	EDU 1062 01	Teacher as Decision- Maker			1	
2012	S1	EDU 2018 01	Developmental Psychology II			1	
2012	S1	EDU 2019 01	The Exceptional Child			1	
2012	F1	EDU 2031 01	Secondary Methods I			1	
2012	S1	EDU 3013 01	Philosophy of Education			1	
2012	F1	EDU 3014 01	Env Ed: Place-Based	1			This course examines place-based education as a means of achieving local, ecological, and cultural sustainability.
2012	S1	EDU 3034 01	Language Development & Disorders			1	
2012	F1	EDU 3070 01	Elementary Social Studies Methods			1	
2012	S1	EDU 3071 01	Elementary Math Methods			1	
2012	F1/S1	EDU 3100 01	Observation Practicum			2	
2012	S1	EDU 4031 01	Assessment & Management of Behavior			1	
2012	S1	EDU 4081 01	Secondary Methods, Hist & Eng			1	
2012	S1	EDU 4082 01	Art Methods			1	
2012	S1	EDU 4086 01	Student Teaching Seminar			1	
2012	S1/F1	ELA 1000 01	Images of Nature	10			This course introduces all first year students to the sustainability mission of the College and the ways that mission is incorporated throughout the general education program. It explores the multiple ways in which human society makes sense of their relation to the natural world.
2012	S1/F1	ELA 1013 01	Environmental Science	2			This course teaches students basic science, underlying climate change, declining biodiversity, and human over-population.
2012	S1	ELA 1017 01	Intro Environmental Chemistry	1			This course uses basic concepts of chemistry to describe and explain environmental issues.
2012	K3	ELA 1023 01	Contemporary Social Issues		1		This course explores major social challenges around the world and examines potential ways of developing the issues.
2012	F1	ELA 1023 01	Contemporary Social Issues		1		This course explores major social challenges around the world and examines potential ways of developing the issues.
2012	F1	ELA 1027 01	Simplicity and Sustainability	1			
2012	K1	ELA 1031 01	Theatre:The Audience Env			1	
2012	F1	ELA 1037 01	Nature in Music			1	
2012	F1	ELA 1039 01	Nature in Theatre and Film			1	
2012	F1/S1	ELA 1045 01	Environmental Ethics		4		This course focuses on the development and use of moral theory to highlight our obligations with respect to non-human entities.
2012	F1/S1/K3	ELA 1049 01	Moral Beliefs: Who's to Say?			3	
2012	K1/S1/F1	ELA 1057 01	World History and the Environment		6		This course examines how the environment has affected human societies and how the development of civilization has impacted the environment.
2012	F1/S1	ELA 1058 01	American Views of the Environment	2			This course focuses on the history of the american environment emphasizing how the development of social systems affected human perceptions, management, and conservation of the environment.
2012	F1/S1/K3	ELA 1105 01	Quantitative Environmental Analysis		6		This course teaches quantitative skills by using enviromental issues as case studies (e.g. the calculation of the amount of carbon emissions resulting from various supply chains).
2012	F1	ELA 1110 01	Local Flora		1		Students learn how plants around us provide vital ecosystem services and how plant communities have changed over time and how they may be conserved.
2012	K1	ELA 1114 01	Conservation Medicine		1		This course explores how human induced environmental changes on local and global scales have lead to the unprecedented emergence of new diseases
2012	F1	ELA 1121 01	Multicultural & Diversity Awareness		1		This course explores ways in which power dynamics negatively affect human sub-groups and ways we can increase the respect and inclusion of the range of human diversity.
2012	F1	ELA 1123 01	Energy & Society - HONORS	1			This course gives students an understanding of current energy use patterns and the critical, cultural, and economic issues linked to the energy-environment crisis. It examines how we might move toward a sustainable energy future.

yr_cde	trm_cde	crs_cde	crs_title	Sustainabi lity Course	Includes Sustainability	N/A	Description (how it relates to sustainability)
2012	S1	ELA 1125 01	Poverty & Inequality in America	1			This course is a critical analysis of the nature and extent of poverty and inequality in the United States; as such it deals with core dimensions of social and economic sustainability in ways these impact environmental sustainability.
2012	F1	ELA 1127 01	Speech Communication			1	
2012	S1	ELA 1160 01	ST: Brain, Behaviour, Moral Selves			1	
2012	F1	ELA 1161 01	Body & Being: Tribal Dance			1	
2012	S1/K3	ELA 1500 04	Writing Seminar:Voices of Community		8		This core course for first year students explores diverse perspectives on individual relationships within the community and ways that individual behaviors can strengthen or weaken community ties.
2012	S1/K3	ELA 2000 01	Dimensions of Nature		7		This core course, required of all sophomores, examines the ways scientific perspectives on nature have influenced our attitudes toward nature from ancient Greece to the present. It uses primary sources to explore Lynn White's provocative hypothesis about the historical roots of the ecologic crisis.
2012	S1	ELA 2012 01	Natural History of Vermont		1		Students learn about the flora and fauna of Vermont and how they have shifted from human land use changes.
2012	F1	ELA 2024 01	Intro to Systems Thinking	1			Students learn how to intervene in natural and human systems to create more positive results with fewer unintended consequences.
2012	S1	ELA 2032 01	Stage to Screen			1	
2012	F1	ELA 2033 01	Aesthetics: Beauty in the Arts/Lit			1	
2012	S1	ELA 2034 01	Chinese Nature Poetry			1	
2012	S1	ELA 2035 01	Natural Science Illustration			1	
2012	S1	ELA 2037 01	Dimensions of Music			1	
2012	S1/F1	ELA 2045 01	International Negotiation & the Env		2		This course teaches the skill of negotiation in conflict resolution within and across cultures. As such it provides important skills for building social sustainability.
2012	S1	ELA 2060 01	ST: Daily Nature Doses/Human Health		1		This course examines multiple ways in which engaging in our natural community can increase our health. It evaluates claims about important connections between natural capital and human capital.
2012	S1	ELA 2069 01	Stories of the Spirit			1	
2012	F1	ELA 3010 01	Climate Dynamics	1			The primary goal of this course is to provide a scientific understanding of the physical and chemical processes governing climate and to use this understanding to evaluate global climate models and explore solutions to climate change.
2012	S1	ELA 3020 01	ST: Animal Law			1	
2012	F1	ELA 3022 01	Ethnoecology		1		This course examines ways in which the knowledge of local people pertaining to plants, animals, and ecological dynamics can assist in conservation of biological diversity, rural development, and sustainable use of common property resources.
2012	S1	ELA 3023 01	Contemporary Political Economy	1			After reviewing neoclassical models of market efficiency, students study environmental and natural resource economics. Particular emphasis is placed on understanding market failures associated with public goods and the policies that governments can use to correct these failures.
2012	F1	ELA 3060 01	ST: Spirituality & Ecology		1		This course explores parallels between key metaphors/principles in ecology and spiritual understandings of our place in the world.
2012	S1/F1/K1	ELA 4000 01	A Delicate Balance	8			This capstone core course for juniors/seniors requires all students to do a significant sustainability project and to write a reflective essay about the ways in which the College's sustainability themed environmental liberal arts curriculum has influenced their lives.
2012	F1	ENG 1003 01	English as a Foreign Language I			1	
2012	F1	ENG 1010 01	Introduction to Literary Studies			1	
2012	K3	ENG 2000 01	ST: Film Appreciation			1	
2012	S1/F1	ENG 2015 01	Creative Writing			2	
2012	F1	ENG 2021 01	American Literature to 1860			1	
2012	S1	ENG 2022 01	American Literature 1860 to Present			1	
2012	F1	ENG 3007 01	World Literature			1	
2012	F1	ENG 3017 01	Writing Workshop: Poetry			1	
2012	S1	ENG 4015 01	Literature of Diversity			1	
2012	F1	ENG 4017 01	SLF: Native American Renaissance			1	
2012	S1	ENG 4018 01	Seminar in Inter Approaches to Lit			1	

yr_cde	trm_cde	crs_cde	crs_title	Sustainabi lity Course	Includes Sustainability	N/A	Description (how it relates to sustainability)
2012	EG	ENG 6070 01	Field Journaling Workshop		1		This course's emphasis on discovering, carefully observing, and accurately recording information in the field provides a natural foundation for further environmental writing workshops. Students not only will practice sustained field inquiry—with special emphasis on sketching as a technique of identification and classification—but they will also consider the epistemological implications of their habits of perception. Students will create thorough profiles of objects and organisms discovered in the field; coursework will culminate in a portfolio of these profiles, prefaced by a reflective essay exploring the challenges and insights encountered during the process of dedicated field investigation.
2012	S1	ENV 2010 01	Intro Geographic Info Systems		1		
2012	S1/F1	ENV 2011 01	Public Policy and the Environment	3			This is an introduction to the environmental public policy process in the US emphasizing the intersection of science and policy and the evolution of federal and state roles in environmental decision-making in policy enforcement.
2012	F1	ENV 2014 01	Digital Mapping			1	
2012	F1	ENV 3011 01	Environmental Law		1		This course is a survey of the leading federal and state statutes and cases on environmental issues.
2012	S1	ENV 3014 01	Watershed Management & Policy		1		Students learn about national and international water policy and the politics that govern water management. The course addresses multiple dimensions of sustainable watershed management.
2012	F1	ENV 3016 01	Land Use Planning		1		This class introduces students to the legal, political, and economic considerations involved in land use planning. It covers multiple dimensions of sustainable land use planning.
2012	F1	ENV 3028 01	Wildlife Law & Policy		1		This course examines both national and international policy regarding treatment and protection of wildlife. It examines how laws influence the sustainability of our relations with wildlife.
2012	S1	ENV 3037 01	International Env Law & Policy		1		Students learn about key principles of international environmental law such as the precautionary principle, sovereignty, and sustainable development. It also covers impact of environmental law on climate change, the oceans, and the relationship between trade and the environment.
2012	S1	ENV 3082 01	Forest Policy & Management		1		Students learn about the causes and consequences of past policies aimed to promote the long-term economic and ecological health of forest ecosystems. They gain a deeper understanding of what sustainable forestry policies might look like in the northeastern US.
2012	EG/ED	ENV 5011 01	Environmental Law & Policy		3		This course is an introduction to the laws and policies pertaining to issues such as population, energy, pollution, land management, waste disposal, economic growth, and ecosystem management, as well as some of the theoretical underpinnings of how economic and ecological burdens and benefits are distributed within society.
2012	EE/EB	ENV 5015 01	Environmental History & Philosophy	3			This course provides a systematic historical and philosophical analysis of prevailing Western perspectives of the environment. Students will begin by exploring the Classical and Judeo-Christian roots of Western thought, after which they will consider how attitudes toward the nonhuman world have evolved since the collapse of the hierarchically structured Medieval world and in the wake of modern science. Students will trace current debates in environmental ethics and history through journals of record in these fields, honing their skills in research and argumentation before defending their own solutions to environmental problems in their local bioregions.
2012	EE/EA	ENV 5020 01	Environmental Leadership	2			This course will examine theories of leadership, group and community dynamics, grassroots and community organizing, and methods of dispute resolution. Students will first examine historic social conflicts and the mechanisms that ultimately resolved those conflicts, with particular focus on the labor, consumer, and environmental movements, and international differences in the ways such movements played out in disparate political and social systems.

yr_cde	trm_cde	crs_cde	crs_title	Sustainabi lity Course	Includes Sustainability	N/A	Description (how it relates to sustainability)
2012	ED/EA	ENV 5040 01	Bioregional Theory and Practice	3			The central goal of this course is to provide students with the experience and direction necessary to understand the multidimensional complexity of their home bioregions in a comprehensive fashion. This will require that each student research the natural and cultural histories of her local ecosystem, compiling a thorough annotated bibliography of resources that provide an enhanced understanding of the region's geology, botany, and wildlife biology, as well as human population dynamics, cultural practices, and environmental impacts. As a part of this project, students will identify contemporary environmental issues and professional resources in the local bioregion.
2012	EG	ENV 6070 01	Public Resource Management		1		Students in this course will focus on the management of federal lands throughout the United States, and the method by which different agencies manage this land. Students will review public policy and current management regimes for forests, grasslands, mineral and coastal resources with primary focus on the lands administered by the United States Forest Service and agencies within the Department of Interior. The course will review multiple management options for these areas, including resource-extraction, recreation, wildlife management and wilderness management regimes, and consider the statutes that control —and sometimes conflict with—such management strategies.
2012	F1	GLG 1011 01	Intro to Geology			1	
2012	F1	GLG 2031 01	Soils		1		Students learn about soil taxonomy and basic soil chemistry. The course emphasizes the application of soil science to ecology, geology, and sustainable agronomy.
2012	S1	GLG 3041 01	Hydrogeology			1	
2012	F1	HIS 1021 01	US History to 1877			1	
2012	F1	HIS 2016 01	US/Vietnam War			1	
2012	S1	HIS 3000 02	ST: Morocco			1	
2012	S1	HIS 3008 01	Renaissance to Enlightenment Europe			1	
2012	S1	HIS 3023 01	America Since 1960			1	
2012	F1	HIS 3032 01	Imperialism/Science & Natural Wrld		1		This course focuses on the imperial agendas of the European powers with respect to the commons of the world. It examines economic and cultural imperialism as it was manifested in the colonial sciences of natural resource management.
2012	S1	HIS 3038 01	Riots & Popular Protest in Euro His			1	
2012	F1	HIS 3053 01	Islamic World			1	
2012	F1	MAT 1015 01	Intro to Statistics			1	
2012	F1	MAT 1031 01	Calculus I			1	
2012	S1	MAT 1032 01	Calculus II			1	
2012	F1	MAT 3000 01	TM: Statis Analysis/Finan via R			1	
2012	S1	MUS 1001 01	Elements of Music			1	
2012	S1	MUS 1011 01	Music Appreciation			1	
2012	S1	MUS 1130 01	Introduction to West African Djembe			1	
2012	F1	MUS 2053 01	ST: Myth of USA in Popular Music			1	
2012	S1	MUS 2053 01	ST: American Musical Theater			1	
2012	F1	NRM 1001 01	Intro to Natural Resources Mgt		1		This introduction to natural resource management explores economic, social, and ecological dimensions of sustainable resource management.
2012	S1	NRM 3075 01	Silviculture		1		This study of different silvicultural prescriptions used to produce timber and non-timber forest benefits examines issues of forest health, biodiversity, and water conservation, as well as their effect on broader social and ecological issues.
2012	EE	NRM 6050 01	Geographic Information Systems			1	
2012	S1	PHI 2021 01	Logic			1	
2012	F1	PHI 3000 01	TP: Intelligence/Disability & Ethic			1	
2012	F1	PHI 3007 01	Topics in Soc/Political Philosophy			1	
2012	S1	PHI 3011 01	Topics in Ancient Philosophy			1	
2012	F1	PHI 3030 01	Feminist Philosophy		1		This course surveys perspectives and issues of feminism and gender theory with special attention to various forms of oppression that have affected women. Students study ways in which feminist perspectives may contribute to building more vibrant and functional communities.
2012	S1	PHI 3043 01	Buddhist Philosophy			1	
2012	S1	PHI 4000 01	Senior Seminar in Philosophy			1

2012	S1	REC 3072 01	Practical Apps of Adventure Therapy			1	
2012	K3	REC 3175 01	Eco-Tourism		1		Students learn about the ecological and human aspects of eco-tourism. The course examines trends in policy, government legislation, and green marketing.
2012	S1	REC 4010 01	Mgmt Outdoor & Adv Programs			1	
2012	K1	REC 4035 01	Master Planning			1	
2012	S1	REC 4051 01	Recreation/Outdoor Studies Seminar			1	
2012	S1	RED 1000 01	Ecological Design Studio I	1			Ecological Design Studio I challenges students to learn basic design and representation skills by applying ecological design concepts to design problems. To do so, students will develop skills in design, drafting, sketching and model building. Emphasis will be placed on the development of hands-on skills in a studio environment. Students will also learn how to see their environment through observational sketching.
2012	S1	RED 3000 01	Ecological Design Studio II	1			Ecological Design Studio II offers students the opportunity to synthesize their multidisciplinary experiences and knowledge into a substantial community-based design project. As a collaborative community, the class will integrate renewable energy systems, climate and ecological design principles, site considerations, and client needs into a building aimed toward regenerative processes. More than a purely functional design, students will develop aesthetic sensibilities through design exercises and studio critiques. They will learn how to articulate design decisions, and how to provide relevant feedback to their peers. Students will leave the course having completed a comprehensive design project.
2012	S1	RED 3005 01	ST: Product Design			1	
2012	F1	RED 3005 01	ST: Building Technologies			1	
2012	F1	RED 3005 02	ST: Solar Design & Installation	1			This course provides a full treatment of options for the design and installation of solar energy systems. Students actually create such a solar system.
2012	S1	RED 3120 01	Renewable Energy: Technology & Apps	1			This course begins with an assessment of energy issues and then provides an overview of various renewable energy technologies and their applications. The course emphasizes a quantitative assessment of the resource potential for each form of renewable energy and the challenges associated with large scale deployment of such systems.
2012	S1	RED 3125 01	Design with Climate	1			Students in Design with Climate will apply their knowledge of ecological design principles and their skills in drawing and design to a real-world design problem. Through research, field study, site analysis, drawing and modeling, students will work through a sustainable building design process from start to finish.

yr_cde	trm_cde	crs_cde	crs_title	Sustainabi lity Course	Includes Sustainability	N/A	Description (how it relates to sustainability)
2012	F1	RED 4000 01	Topics in Energy & the Environment	1			This course provides students with the opportunity to explore, in great detail, emerging issues in energy policy and markets. The transition to a sustainable energy future requires innovative approaches to policy and rules governing energy market operations. Topics may include peak oil and the global petroleum market or emerging federal policy to combat global climate change. The topics for this course will be selected based on current events and student interests.
2012	F1	RED 4025 01	Environmental Design/Build	1			Design/Build offers students an opportunity to apply their knowledge and skills to real-world, hands-on projects aimed at benefitting their community. Students will learn about greenbuilding materials and methods, construction tools and techniques, and the design/build process. As a group, students will analyze a site, interview the client, craft a program, collectively work toward an appropriate design solution and work as a team bringing it to life.
2012	F1	REL 1010 01	Introduction to Shamanism			1	
2012	K2	RHM 1050 01	Co-Op I			1	
2012	K3	RHM 1125 01	Sustainable Marketing		1		This course applies basic sustainable marketing principles to the resort/hospitality industry. It introduces concepts of product life cycle, resource allocation and relationship marketing strategies.
2012	K1	RHM 1375 01	H/R Resource Issues in Hospitality			1	
2012	K1	RHM 1425 01	MIS & Data Management			1	
2012	K3	RHM 1475 01	Financial & Budget Management			1	
2012	K1	RHM 1525 01	Intro to Resort & Hospitality Opera			1	
2012	K1	RHM 1550 01	F&B Operations			1	
2012	K2	RHM 2050 01	Co-Op II			1	
2012	K1	RHM 2125 01	Retail & Consumer Behavior			1	
2012	K1	RHM 2150 01	Market Research for Hospitality Res			1	
2012	K1	RHM 2175 01	Events Planning			1	
2012	K1	RHM 3220 01	Organizational Leadership			1	
2012	K3	RHM 3225 01	Hospitality and Resort Law			1	
2012	K3	RHM 3295 01	Resort and Hospitality Strategy		1		This capstone course requires students to demonstrate decision-making and communication strategies in the management of resort/hospitality operations. It integrates all courses in the resort and hospitality major including courses with an explicit sustainability focus.
2012	K3	RHM 3575 01	Lodging Operations			1	
2012	S1	SDE 400G 01	Progressive Program Senior Seminar			1	
2012	UI/S1	SFS 1011 01	Fundamentals of Organic Agriculture		2		An introduction to the history, ethics, and fundamental principles of the organic agricultural movement and its relationship to sustainable food, fiber, and seed production.
2012	F1	SFS 2060 01	Biodiversity Issues Ag: Seeds/Trees		1		This course will take a comparative approach to understanding the role of biodiversity in agriculture using cultural, biological, and geographic perspectives. It will cover the emergence and diffusion of crop diversity in different traditional agricultural systems, and trace the erosion of this heritage with the rise of scientific breeding and industrial agriculture. It also investigates a range of contemporary agrobiodiversity issues: ex situ vs. in situ conservation, participatory breeding, global policy, the threat of GM (genetically modified) crops, and the relationship between biological and cultural diversity.
2012	S1	SFS 2061 01	Biodiversity Issues in Ag:Livestock		1		A diverse array of livestock breeds are disappearing across the globe at alarming rates. The landscapes, management practices, and cultural traditions associated with these livestock are also threatened. The remaining predominate breeds suffer from perilous genetic erosion. This course will examine the conservation strategies and issues surrounding rare breeds of livestock in the U.S. and abroad.
2012	UI	SFS 2070 01	Sustainable Regional Food Systems	1			
2012	UI	SFS 2075 01	Integrated Production Systems		1		Students will be expected to work 5 hours on the farm plus taking a share in daily chores (max. 2 hours a week). In addition, they will spend 6 to 9 hours a week in curricular activities as outlined below. The course will feature experiential learning and independent study and research in addition to an average of 4 contact hours each week, equivalent to a standard 15-week term's contact hours.
2012	S1	SFS 3000 01	ST: Food Justice		1		

yr_cde	trm_cde	crs_cde	crs_title	Sustainability Course	Includes Sustainability	N/A	Description (how it relates to sustainability)
2012	S1	SFS 3000 02	ST: Food Safety: Science, Policy		1		This course examines the recent history of food borne diseases, environmental influences, and food security before looking at the role of farm management in promoting food safety.
2012	S1	SFS 3000 03	ST: Agriculture & Food Policy		1		
2012	S1	SFS 3000 04	ST: Mexico: Food Security		1		
2012	F1	SFS 3054 01	Sustainable Farming Systems	1			
2012	ED/EA	SFS 5010 01	Contemporary Food Systems		3		This survey of local, regional, national, and international food systems will provide students with a basic understanding of how to analyze individual elements of the systems and their interrelationships and how to begin assessing the "sustainability" of those food systems at different scales and in different bioregions.
2012	EE/EB	SFS 5020 01	Bioregional Theory and the Foodshed	3			Bioregional theory and the emergent idea of foodsheds are complementary and provide a context for defining areas of study and change. Students' understandings of their own bioregions and foodsheds will inform the entire program of study .
2012	ED/EF	SFS 5030 01	History of American Agriculture			2	
2012	EC/EG	SFS 5040 01	Theory & Practice of Sustainable Ag	2			This course will provide an historical overview of the theory and practice of sustainable agriculture in the U.S., with an emphasis on soil health, farm systems, crop and livestock selection, animal husbandry practices, natural and synthetic chemical use, energy resources, mechanization options, and genetic manipulation.
2012	EE	SFS 5050 01	Vegetables & Fruits: Farm to Plate		1		Beginning with the differing challenges of farming with annual crops versus perennials, this course will explore current thinking, trends, and production methods for vegetables and fruits before moving into the often hidden methods and difficulties in processing, storing, distributing, preparing, and consuming these foods. Various business models and management systems will be explored, with a careful eye toward "sustainable value chains" that focus on profitability, environmental concerns, and consumer satisfaction.
2012	EF/EA	SFS 5060 01	Livestock: Farm to Plate		2		This course is designed to help students see the decision-making junctures in meat production and consumption, junctures that can determine different definitions and understandings of "sustainability" in this complicated aspect of the food system .
2012	EG/EB	SFS 6010 01	Contemporary Food & Ag Movements	2			This chronological overview of food movements in the US and abroad from the 19th century forward will enhance student understanding of how food and agriculture movements begin, develop, transform, and sometimes wane.
2012	EC	SFS 6020 01	Food Law and Policy			1	
2012	ED	SFS 6030 01	Agriculture and Energy		1		This course will examine energy use in the various sectors of the food system, assessing points of key concern and interest and analyzing different methods of rectifying these concerns. The relationship between energy choices and agricultural yields, farmer profits, food access, and food affordability will be emphasized throughout the course.
2012	EE	SFS 6040 01	Sustainable Marketing	1			
2012	EF	SFS 6050 01	Sustainable Organization Mgt	1			Management is the key to long-term success of any venture, and the dynamic nature of food systems requires strategic management skills that ensure sustainability. With a focus on the triple bottom line, this course will require students to develop a business plan in the sector in which they plan to work in coming years.
