

To Whom It May Concern,

SUNY ESF's Sustainability Division affirms that Sue Fassler, director of sustainable operations, Delaney Demro, sustainability education and engagement manager, and Justin Heavey, sustainability research and programs manager, reviewed Cornell University's 2022 STARS submission in full and that all identified errors were successfully addressed prior to Cornell's formal STARS submittal to AASHE.

Sincerely,

A handwritten signature in cursive script that reads "Sue Fassler".

Sue Fassler
