University of Arizona Sustainability Assessment Survey, Fall 2011

Dates Administered: Nov. 28, 2011 – Dec. 14, 2011

Page - Sustainability Assessment Survey

The Office of Sustainability thanks you for electing to take our survey. We are hoping to determine the impact that your time at The University of Arizona has had on your understanding, values, and behavior regarding sustainability topics. The survey should take between 5 and 10 minutes. We welcome your feedback very much, and your completion of the survey will give you a chance to enter you into a raffle for one of ten UA BookStore gift cards that can be used towards graduation regalia (cap, gown, and tassel) or other items.

Throughout the survey you will see references to the following terms; please keep these definitions in mind when responding to the questions.

Sustainability: the ability to provide for the needs of the current generation without compromising the ability of future generations to meet their needs.

Environmental sustainability: Maintaining the integrity of natural systems and services we rely on - clean air & water, food production, etc.

Social justice: Advancing a fair, just, and secure society for all people.

Sustainable economic development: Economic development consistent with environmental sustainability and social justice, and from which as many people as possible prosper.
