RE: The University of Arizona STARS submission

To Whom It May Concern:

I am pleased to write this letter as an accompaniment to the Association for the Advancement of Sustainability in Higher Education (AASHE) STARS report for the University of Arizona. The report was compiled by the University colleagues and units responsible for the respective STARS content areas, and it is complete and accurate to the best of my knowledge. The University of Arizona is committed to environmental sustainability and is proud to have participated as a Chapter member for the STARS Reporting System. We are pleased to have this opportunity to showcase the work of University student, faculty, and employee sustainability efforts.

Sincerely yours,

Eugene G. Sander
President
