AASHE STARS Steering Committee:
The Association for the Advancement of
Sustainability in Higher Education
213 Yz North Limestone
Lexington, KY 40507

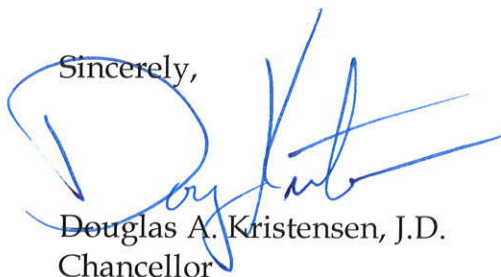

Dear Steering Committee Members:

I am pleased to provide this sustainability self-assessment on behalf of the University of Nebraska at Kearney. An electronic verification report will also be submitted for UNK. STARS has been a valuable planning and reporting tool, allowing us to benchmark current efforts and track progress toward meeting future goals.

We are committed to continual improvement and integration of sustainability in the key areas identified by STARS: Education and Research, Operations, and Planning, Administration and Engagement.

As we pursue greater sustainability as an institution, we look forward to sharing our success and learning from other institutions.

Sincerely,

Douglas A. Kristensen, J.D.
Chancellor
