Dear Mr. Rob St. Onge

Re: Sustainable Construction Management Course

PCL Constructors Westcoast Inc. is pleased to provide this letter of support for the Sustainable Construction Management Course. We believe this program provides an opportunity for the construction industry to consolidate their leadership positions in delivering sustainable development. Graduates are leaders in management, understanding and implementation of sustainable technologies. The basic objective is to provide a fundamental understanding of the sustainable concepts and methods used to take a design into the field and build a sustainable structure in the most efficient and effective manner with minimal environmental impacts.

PCL is excited to be an integral part of the above mentioned sustainable program, as we see this is the future of our industry.

Yours truly,

PCL CONSTRUCTORS WESTCOAST INC.
