RE: Weber State University's STARS 2.0 report submission

Dear AASHE representatives:

On behalf of Weber State University, I am pleased to submit our institution's STARS 2.0 report, which gives the university a bronze-rating score of 40.16. I affirm the accuracy of the data and thank you for the opportunity to participate in your Sustainability, Tracking, Assessment and Rating System.

We have found your program and reporting tool to be valuable guides as we work toward a more sustainable university. Beautiful, sustainable campuses are among my top presidential priorities, and I anticipate that WSU will continue to make a bigger impact on our world by making less of an impact on our planet.

Best wishes,
