RE: Guilford College's STARS Submission

To Whom It May Concern:

I am pleased to submit Guilford College's first set of data for the Sustainability Tracking, Assessment and Rating System (STARS) report. The STARS data were collected through collaboration by a team of faculty, staff and students during the past year. As president of Guilford College, I affirm that the data submitted are correct and accurate.

Sincerely,

Kent/John Chabotar
President and Professor of Political Science
