

The POWER Challenge puts all UT dorms against each other to see who can help reduce the campus's environmental impact!

May the best dorm win!

POWER Challenge Brochure

Programs of Water, Energy and Recycling
Office of Sustainability

A UT tradition since 2005, the Make Orange Green POWER Challenge is a way for the UT community to demonstrate its commitment to reducing the university's environmental impact.

Point Breakdown

- Residence Hall Program: 60 points plus 5 point for each 5% population increase. At least 5% must attend to count
- Floor Program: 30 points plus 5 points for each 5% population increase. At least 5% must attend to count
- Door Decoration: 30 points, can only be awarded once
- Bulletin Boards: 15 points, 60 point maximum. Can make a total of 4 (1 per week)
- Educational flyers: 10 points per flyer
- Environmental Pledges: 3 points per pledge
- Service Projects: 2 points per half hour of service
- Social Media: 1 point per follow
- Water, energy, and recycling: halls will be ranked 1-10, and assigned points 10-100 accordingly

	2. MASSEY 2718 pts	7. MORRILL 690 pts	
	3. CLEMENT 2314 pts	7. VOLUNTEER 690 pts	
	4. O & W 1204 pts	9. LAUREL 660 pts	
	5. HESS 1124 pts	10. REESE 640 pts	

Tips: Ways to reduce water, energy, and waste

Water:

- Cut shower time
- Turn off water when brushing your teeth and shaving
- Only do laundry when you have a full load and use cold water
- Stop drinking bottled water
- Report leaking things
- Only use dishwasher when full

Energy

- Power down/unplug electronics when not in use
- Turn off lights, take advantage of natural daylight
- Take the stairs
- Minimize use of hot water
- Try not to use the dryer, invest in drying rack
- Report drafty windows, broken doors and other energy wasting items

Waste

- First Reduce: only take food you're going to eat, don't buy anything unless you really need it
- Then Reuse: take advantage of the Mug Project, reuse containers
- The Recycle: if you can't reuse it, make sure it is being recycled in the correct bin, all are located in dorms, and cardboard is located outside

General Tips

- Look up environmental related documentary's on Netflix
- Take advantage of the Mug Project, which will save you money and the school resources!
- Take the bus and ride your bike to get around, rather than driving
- Talk with your RA if you have any ideas or further questions
