

<u>Last name</u>	<u>First name</u>	<u>Department</u>	<u>Research</u>
Besteman	Catherine	Anthropology	Inequality and racism insecurity and violence Africa, South Africa, southern Somalia, US refugees, mobilities, humanitarianism engaged anthropology activism cities
Mills	Mary Beth	Anthropology	Anthropology of Asia and Southeast Asia Gender and sexuality Rural-urban linkages Global mobilities, labor, and migration Commodification and consumption Social Movements Human Rights Political Documentary Transnationalism
Razsa	Maple	Anthropology	Postsocialist Europe Air Air Cultures Racial Oppression African Diaspora
Bhimull	Chandra	Anthropology/African American Studies	Decolonization Imagination and Emancipation
Green	Gary	Art	B&W and color photography Large-format cameras Traditional and digital processes Alternative processes Figure drawing and painting Visual equivalents of mother- daughter relationships Fine art photography Curatorial skills in Visual Resources
Libby Ahmed	Maggie Tariq	Art Biology	Collections Drosophila modelling Evolutionary developmental genetics; appendage patterning; and allometry in insects and other arthropods
Angelini	David	Biology	Behavioral and physiological ecology of vertebrates, especially frogs; ecosystem resilience to residential development in the Belgrade Lakes Watershed Landscape fragmentation, rainforest restoration
Bevier	Cathy	Biology	restoration
Collins Fekete	Cathy Frank	Biology Biology	Bioremediation
Greenwood	Paul	Biology	Nematocysts

Hannum Johnson Kavaler	Lynn Russell Peter	Biology Biology Biology	Immunology Plant physiology Developmental biology Control of movement, Visual tracking of targets, Behavioral neuroethology in insects
Martin McKeon Peck	Josh Sea Josh	Biology Biology Biology	Global Change Biology Microbiology Ecology Ornithology
Staffiere	Sarah	Biology	Evolution
Stone	Judy	Biology	Evolutionary ecology, plant mating systems, seed dispersal, gene flow, colonization, range limits
Tilden	Andrea	Biology	Circadian rhythms; behavioral, physiological, cellular, and molecular aspects of circadian processes using crustaceans as a model system; neuronal development; neural protein expression patterns. Belgrade Lakes Watershed Sustainability Project; population ecology
Wilson Hudson	Herb Reuben	Biology Chemistry	Green Chemistry Belgrade Lakes Watershed Sustainability Project
King	Whitney	Chemistry	Latin Love Poetry Ancient Magic Mythology Neolithic and Bronze Age archaeology
O'Neill Taylor	Kerrill Stephanie	Classics Computer science	Modelling biological systems
Zhang	Hong	East Asian Studies	Labor migration, gender, and new marriage patterns Family, rural life, and urbanization in contemporary China Aging, eldercare and population policy Chinese culture and language
Chan	Nathan	Economics	1) challenges in energy policy and environmental management, and 2) the behavioral dimensions of social dilemmas

			Intersection of conservation, land use and ecosystem services; research topics in energy economics looking at subsidies for renewable energy and economic impacts from unconventional gas and oil, marine economics looking at preferences for sustainable seafood
Dissanayake	Sahan	Economics	Belgrade Lakes Watershed Sustainability Project; Econometric modeling for policy analysis and forecasting
Donihue	Michael	Economics	Macroeconomic policy Contemporary Economic Issues
Edwards	Wayne	Economics	Indigenous Economies
			Maine economic conditions Federal Reserve policy Political influence on economic policy Monetary policy and financial markets, specifically interest rate
Findlay	Dave	Economics	Auctions, applied game theory, industrial organization
Hubbard	Timothy	Economics	
LaFave	Dan	Economics	
			Development economics, labor economics, health economics, applied econometrics
LaFave	Daniel	Economics	
			Economic history, urban economics, economic geography, barriers to urban redevelopment International Trade Foreign Direct Investment (FDI) Multinational Firms Economic Integration Trade and the Environment NAFTA Mexico
Siodla	James	Economics	
			Applied Microeconomics Latin American economics Latin American military, security, and defense industries Brazil Economics of Globalization
Waldkirch	Andreas	Economics	
			Corporate Social Responsibility in Latin America Girls social and psychological development Girlfighting and competition among girls Activism and youth organizing
Franko	Patrice	Economics/Global Studies	
			Media and marketing to girls
Brown	Lyn Mikel	Education	

Howard	Adam	Education	Social class issues in education Elite schooling and affluent youth Curriculum theory Multicultural Education Secondary teacher education Special education
Kusiak	Karen	Education	Educational technology Creative nonfiction prose Environmental literature Nature writing
Burke	Michael	English	Environmental Humanities 18th century British literature Transatlantic literatures c. 1600-1800 The novel Epistemology Enlightenment/science writing
Hanlon	Aaron	English	Theories of exceptionalism Critical and Literary theory & postcolonial cultural criticism Global literatures from South Asia, Africa, and the Caribbean
Roy	Anindyo	English	Early twentieth century British Literature Multi-ethnic US literatures Comparative studies of race and ethnicity Disability studies Environmental humanities Gender and sexuality studies Medical humanities
Sibara	Jay	English	Transnational American studies Composition Creative Nonfiction Memoir Environmental Literature
Stokes	Elisabeth	English	Gothic Literature Aquatic Ecology Biogeochemistry Ecosystem Ecology Limnology Stream Ecology Nutrient Cycling Communicating Science
Bruesewitz	Denise	Environmental Studies	Citizen Science Coastal Systems Environmental health & toxicology Public health Environmental justice
Carlson	Gail	Environmental Studies	Environmental activism Science literacy

Gimond	Manny	Environmental Studies	Geographic Information Systems (GIS) and Spatial Analysis Data analysis in R Environmental systems modeling Marine conservation
McClenachan	Loren	Environmental Studies	Historical ecology Coral reef ecology
McDowell	Bill	Environmental Studies	Ecology Policy implications of ecological restoration
Morris	Lia	Environmental Studies	Natural resource planning
			Atlas of Maine; Belgrade Lakes Watershed Project; Environmental policy Geographic Information Systems (GIS) Endangered species conservation, policy, and risk assessment Human-wildlife conflict, including tiger and large mammal conservation
Nyhus	Philip	Environmental Studies	Salt marsh ecology
Pearson	Abby	Environmental Studies	Natural history Macroinvertebrate taxonomy
			International environmental policy Institutional economics Carbon forestry Common pool resources Community based forest management Payments for ecosystem services Global food policy Food and agricultural policy in the United States
Reynolds	Travis	Environmental Studies	Church forests in rural Ethiopia Modern and contemporary Italian literature and culture Environmental humanities Digital humanities Urban soundscapes / The city in literature Italian surrealist novels, graphic novels, and short stories Literature and mental illness Foundations of 20th-century Italian literary canon
Ferrando	Serena	French and Italian	
Dunn	Tasha	Geology	Meteors
Gastaldo	Robert	Geology	Permian Triassic Boundary
Nelson	Bob	Geology	Insects and landscape

Rueger	Bruce	Geology	Belgrade Lakes Watershed Sustainability Project
Rueger	Bruce	Geology	Landscape
Sullivan	Bill	Geology	Tectonics
			Russian and Soviet history
			History of 20th century science and technology
			Environmental history
Josephson	Paul	History	Neo-Luddism
			Global Ecological and Economic History
			African History
			Historical Epidemiology
Webb	Jim	History	History of Malaria
O'Brien	Liam	Math and stats	Biostatistics
Scott	Jim	Math and stats	Mathematical modelling
			East Asian Philosophy
			American Philosophy
Behuniak	Jim	Philosophy	Philosophy of Religion
			Continental Philosophy
			Philosophies of Nature and Environment
			Philosophical Anthropology
Peterson	Keith	Philosophy	Value Theory
			Stress and the Human-Environment Interaction
Buccigrossi	Michael	Psychology	Belgrade Lakes Watershed Sustainability Project; History of science and technology
			Science, technology, and society (STS)
			Public policy
			Climate, meteorology, weather
			Climate intervention
			Museum practice
Fleming	Jim	Science, Technology, and Society	Earth and space history
			Editing and publishing
			Latinx Literature
			Caribbean Literature
			Water
Hey-Colon	Rebeca	Spanish	Afro-Diasporic Spirituality
			Pre-Columbian and colonial studies with an emphasis on the Andes;
			Early Modern science and natural histories of the New World; and
			Jesuits writings from a transatlantic perspective.
Millones	Luis	Spanish	
			South Asian Feminisms
			Transnational Feminist Theory
			Critical Race Feminisms
			Human Rights
Thomas	Sonja	Women's, Gender, and Sexuality Studies	Syrian Christianity in South India
			Tap Dance
