- 
- We accept GBCI's Final Review ruling and will not appeal.
- Recommended:** *This project is NOT private; GBCI may include this project on certified project lists and publish a scorecard indicating credits earned (denied credits are not included)*
- This project is private; the GBCI may NOT include this project on certified project lists or publish a scorecard indicating credits earned (denied credits are not included)*
- We will appeal the Final Review and will submit documentation and payment within 30 days as outlined in the appeal procedure below.
- 

**SITES Certification Appeal Procedure**

The cost of an Appeal Review is \$500 per credit appealed, payable via check or credit card. GBCI will contact you to arrange payment upon receipt of documentation.

Appeal documentation must be uploaded to the project team Dropbox folder. A separate folder should be created for all appeal documentation.

Please include a narrative along with the updated submittal template and supporting documentation for each appealed credit to describe how the documents address the reviewers' comments and concerns. Note that all provided documents will be reviewed as part of the appeal process.

Once your appeal submission has been uploaded, please respond directly to your latest email from GBCI containing your project case number. You will then be contacted to arrange payment (via check or credit card) and informed when the appeal review is ready to begin. We estimate returning the review approximately one month from receipt of your submission.
