Executive Summary

This report includes FY 2009-10 records pertaining to the Sponsored Programs Office (SPO). Figures include funded grant awards, contracts awarded University Centers and Institutes, and awards made to the Ball State University Foundation that resulted in sponsored programs.

Congratulations to the faculty, professional staff, and students who submitted grant proposals during the past fiscal year! The statistics illustrate a year of work well done.

FY 09-10 brought a *record level* of funding—**\$26,406,714**—in external dollars to Ball State University, as compared to the total \$26,082,888 the previous year. **656** proposals were submitted that resulted in **422** funded awards—the latter also a new record—up from 401 awards in FY 2008-09.

Of particular significance this past year is having increased the *median* size of grant requests from academic and administrative units to **\$21,800** (in contrast to the **\$17,376** median request from departments/units the previous year). This increase signals a growing robustness of *collaborative* projects on campus. Faculty members are *aiming higher*—in terms of numbers of personnel (co-PIs, graduate and undergraduate students), duration of projects (many multi-year), and scope of work (more federal proposals submitted)—that in turn require greater resources to make a project go.

Also noteworthy is the new-found recognition of the need to include fiscal information from the Ball State Foundation—including donations and contracts—that play out as sponsored programs. The past year saw the formation of new policies governing Centers and Institutes, including a streamlined internal document routing and approval system, a new formula for applying indirect costs, and a more appropriate and incentivized sharing of recovered indirect costs.

We extend our appreciation to all who carried out the challenging work of preparing grant proposals—whether awarded or not—and recognize the groundbreaking achievements represented by those who were funded. Thanks also to the hard working SPO staff, who are eager and willing partners to faculty and staff in proposal development and in ensuring the submission of a competitive grant application.

Best wishes for continued success!

Robert J. Morris
Associate Provost for Research
and Dean of the Graduate School
Professor of Chemistry

Kristi Koriath
Director
Sponsored Programs Office

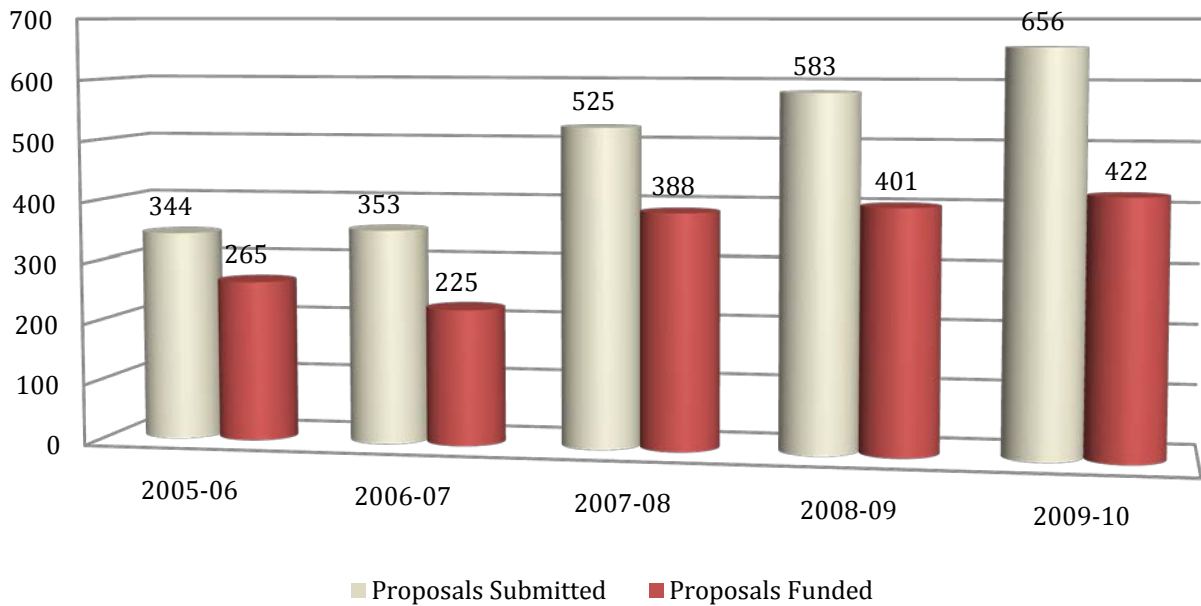

External Funding Overview

	2005-2006	2006-2007	2007-2008	2008-2009	2009-2010
Academic Colleges	\$13,546,619	\$10,915,587	\$14,888,235	\$16,011,233	\$8,686,838
Other Units	\$9,849,463	\$7,168,862	\$5,499,563	\$10,071,655	\$17,719,876
Total	\$23,396,082	\$18,084,449	\$20,387,798	\$26,082,888	\$26,406,714

External Dollars Received 2005-2010

Total Number of Proposals Submitted and Funded by External Grants

External Funding Overview

College of Communication, Information, and Media	\$369,761	21
Miller College of Business	\$358,074	18
Student Affairs	\$144,477	7
TOTAL	\$26,406,714	422

Initiatives and Accomplishments

Ball State Strategic Plan 2007-12

The performance of SPO in **FY 2009-10** is on track *or has exceeded* the goals targeted for the **2011-12** academic year in the following areas:

- **funding** for scholarly work - **\$26.4 M** (\$45.2M by 2011-12)
- **number of proposals** submitted – **656** (489 by 2011-12)
- **number of faculty** submitting one or more proposals – **340** (383 by 2011-12)

Major Proposals Funded

- National Alerts Network: Terms of MOU finalized between BSU and Channel One Network/Alloy Media + Marketing for the development of a new national alert system for public schools across the nation which will provide inbound, geo-sensitive emergency alerts of all types (weather, hazard, terror, etc.). Additional projects with commercial potential are envisioned as our relationship with Channel One continues to grow.
- Extended Education received \$4.4M to provide academic and vocational education services to the Indiana Department of Corrections at the Madison Juvenile Correctional Facility.
- Rinker Center for International Programs received \$1M+ award to expand international educational opportunities in Iraq under the direction of Kenneth Holland, Dean.
- The University's Geothermal Project, working closely with University Development and Business Affairs, secured \$5M in funding.
- \$827K in continued support for the Biomechanics Laboratory was received from the Department of Defense.
- Melody Bernot of the Department of Biology received an EAGER (Early-concept Grants for Exploratory Research) award from the National Science Foundation for \$297K.
- Continuing support from Fulbright-Hays for Nihal Perera's CAP student international study of society, culture, and space in South Asia.

Campus-Wide Policies

- Newly developed procedures for processing contracts for University centers and institutes; newly defined policy for indirect costs recovery and distribution for centers and institutes.
- Development of an External Graduate Assistantship Policy.
- Completed the first year of implementation of the Proposal Submission Policy, the Course Buyout Policy, and the Indirect Cost Recovery Distribution Policy.

Initiatives and Accomplishments

Measures for Fiscal Responsibility

- Now included in Ball State University award reporting are all those University Development/Ball State Foundation external grants or donations that are:
 - for specific faculty members,
 - for specific programs or activities, or
 - those that require contractual obligations or reporting through SPO/CGO fiscal administration (with the exception of student aid and construction).
- University Development and SPO representatives will meet at least annually to compare funding sources to ensure all applicable funding inclusion in both areas.
- SPO will continue to include transfers from the Ball State Foundation to General Fund accounts when the funds are for a specific purpose.
- These measures will ensure accounting for *all* research funding, will ensure that transactions in the fiscal system are coded and reported correctly, and will be in consonance with those followed by other Indiana universities.

Incentive Programs for Faculty and Professional Personnel

- Cardinal Fellows Program supports faculty *time* to prepare applications for large federal awards (\$200,000+).
- Individual Research Incentive Accounts facilitates PI access to incentive programs such as SUBMIT, RESUBMIT, and recovered indirect cost distribution.
- Emergence of ENHANCE – Preliminary Federal Proposal Program in order to provide support to acquire preliminary research information leading to a federal proposal.
- \$98,565 in recovered indirect costs was returned to departments, \$42,996 was returned to PIs, and \$23,613 was transferred to colleges for their use.

SPO Professional Development

- Instituted in-service training for SPO staff in areas of intra-university interaction.
- Implemented Standard Operating Procedures for the Sponsored Programs Office.

Initiatives and Accomplishments

Campus Initiatives

- Faculty Fellow, Carolyn Kapinus of the Department of Sociology, was engaged for Summer 2010 to work with SPO staff and BSU's seven colleges to develop strategic initiatives intended to maximize the external funding potentials for each college.
- *The Grants Trilogy* workshop series, offered each semester, continues to be presented to faculty and professional staff via University Training and Development.
- Procedures for promoting the activities of Ball State's Knowledge Creation Units, making them more accessible to the University community and beyond, was instituted.
- Participation in the Student Symposium achieved record numbers and an increased level of visibility.
- Improved and expanded content on the SPO, Ball State Innovation Corporation (BSIC), Contracts and Grants (CGO), and Graduate School websites.
- The 17th annual BeneFacta Day took place on November 11, 2009 at the Ball State Museum of Art. Benefacta Day provides the opportunity to celebrate all faculty members for their "good works" in research and sponsored projects during the previous year. Ball State University President Jo Ann Gora presented words of congratulations and encouragement at the gala event.

ASPiRE Internal Grant Program

The ASPiRE Program has concluded the second year of its redesigned profile and has accomplished the goal of emphasizing *seed funding* to enable future successful external grant awards. All proposals are submitted electronically through IRBNet. Included are the following representative programs:

- **General Faculty Competition** offer summer stipends for a maximum of \$6,000 and a total proposal cap of \$10,000.
- **Junior Faculty Competition** for tenure-track faculty in their first, second, or third year for summer stipends, supplemental assigned time, summer graduate assistantships, and SEET funds. (Proposals are capped at \$10,000)
- **Start-Up competition** for new, tenure-track faculty to receive \$1,500 for supplies, expenses, equipment and travel (SEET).
- **International Travel Award** provides supplemental travel funds for international travel to present or perform abroad.
- **Student programs for Research and Creative Arts.**

Research Recognition

Research Magazine

The Winter 2009-10 edition of *Ball State Research* was the first online issue of the former print publication, *BeneFacta*. The 22nd issue of the annual publication included pages displaying representative scholarly and creative work of Ball State University researchers. Featured content included articles on statin drugs investigated in the laboratory of Susan McDowell, Department of Biology; on bringing social history to life through the outreach projects of Ron Morris, Department of History; on the international partnerships in sustainability of John Motloch, Department of Landscape Architecture; and other “briefs” in creative, scientific, and scholarly projects.

Outstanding Creative Endeavor and Researcher of the Year

The Researcher of the Year award is given to a single, superior researcher who displays an exemplary research record. The recipient is nominated by campus peers, selected by the University Research Committee, and is honored each fall at the faculty opening convocation. The 2009-10 recipient is Richard Fluegeman, Professor of Geological Sciences. Fluegeman's work has been funded by the National Science Foundation (NSF), the American Chemical Society, and Seismic Micro-Technology, Inc. Over the course of his career, he has presented at more than 55 regional, national, and international conferences. Fluegeman has also represented the Department and Ball State at the prestigious Penrose Conferences, which are sponsored by the Geological Society of America.

The Outstanding Creative Endeavor award is given in recognition of cumulative creative and artistic achievements as well as contributions to the University community in the area of creative arts. The recipient is likewise nominated by peers, selected by the University Creative Arts Committee, and is named at the fall faculty convocation. The 2009-10 recipient is Mark Neely, Associate Professor of English. A published poet himself, Neely brought innovation to the traditional literary journal, *The Broken Plate*, that features Ball State students' works, by “reinventing” the journal as an international publication.

Dr. Fluegeman gave a presentation on “Sea Level Change in Earth History” and Professor Neely on “Thoughts on the Uselessness of Art” at the annual lecture featuring the Researcher of the Year and Outstanding Creative Awardee on April 13, 2010.

Cardinal Fellows Program 2009-10

In order to increase the number of competitive federal grant proposals requesting \$200,000 or more, fourteen faculty members were selected as Cardinal Fellows for the 2009-10 Academic Year. The Cardinal Fellows program provides a course release and 1.5 times the amount of SUBMIT incentive funds to the Fellow. Funding \$27,000 in course release funds, the program yielded 10 proposals requesting \$4,446,462 from sponsors.

2009-10 Cardinal Fellows

Timea Gerczei-Fernández	Chemistry
Trent Hargens	Physical Education, Sport and Exercise Science
Arlene Ignico, Tammy Burt and Carla Vidoni	Physical Education, Sport and Exercise Science
Greg Morrison	Criminal Justice and Criminology
Kirsten Nicholson	Geological Sciences
Mark Pyron	Biology
Serena Shim and Kathryn Fletcher	Educational Psychology
Paul Spengler	Counseling Psychology and Guidance Services
Ranjith Wijesinghe	Physics and Astronomy
Wayne Zage and Dolores Zage	Computer Science

Research Recognition

Student Symposium

The 15th annual Student Symposium was held on March 30, 2010 in SC Ballroom with 119 project displays representing the scholarly research and creative endeavors of graduate and undergraduate students at Ball State University. Judges for the event were Derron Bishop, Assistant Director, Center for Medical Education; Lori Byers, Associate Dean, College of Communication, Information, and Media; Jeffry Grigsby, Associate Dean, College of Sciences and Humanities; Kecia McBride, Associate Dean, College of Sciences and Humanities; and Jack Wescott, Associate Dean, College of Applied Sciences and Technology.

The Student Symposium awards are established in memory of Sandra Smith, Linda Keys, and Jeffrey Litten, professional personnel who served in the Sponsored Programs Office collectively for over 30 years. The awards recognize students for their outstanding presentations at the Student Symposium and consist of a \$100 prize for each awardee.

Those receiving the 2010 awards are:

Graduate:

Scott Dueball, Physical Education, Sport, and Exercise Science

The Effect of Height on Musculoskeletal Injury While Performing Drop Landings

Funded by: BSU ASPIRE

Faculty Mentor: Henry Wang

Kamal Prajapati, Biology

Abolishing Multi Drug Resistance in Cultured Lung Cancer Cells Using RNA Interference

Funded by: Indiana Academy of Sciences

Faculty Mentor: Carolyn Vann

Staci Weaver, Biology

Investigating the Role of Brain Glycogen after Acute Seizure Activity in Mice

Funded by: IUSM Research Enhancement, BSU ASPIRE, and the National Institutes of Health

Faculty Mentor: Bart Pederson

Undergraduate:

Lisa Bourdon, Biology

The Influence of Testosterone and Estrogenic Compounds on Microbial Activity

Faculty Mentor: Melody Bernot

Matt Crosley, Chemistry

Exfoliation of Atomic Layers from Synthesized MoS₂ and WS₂ Nanoparticles

Funded by: Department of Chemistry, Ball State University

Faculty Mentor: Tykhon Zubkov

Brian Main, Landscape Architecture

The Mexican Chinampa, Understanding a Culture

Faculty Mentor: Rob Benson

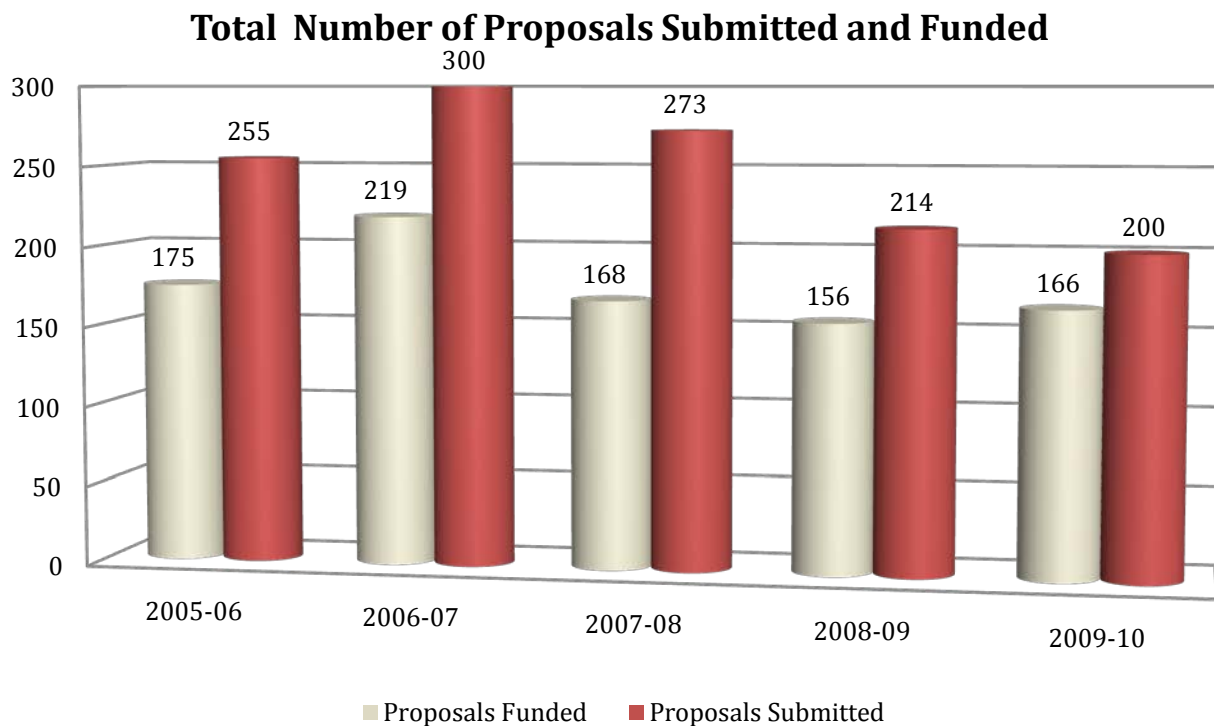

ASPiRE Internal Grants Program

Ball State University's Internal Grants Program was created in 1965 to provide funding to faculty and students and to support and develop projects in the areas of research and creative endeavors. ASPiRE Internal grants are intended to supplement and strengthen the support for research and creative endeavors that comes both from departmental and college resources as well as other university programs.

The ASPiRE Internal Grants Program consists of the following competitions: General Faculty Research, Junior Faculty Research, General Faculty Creative Arts, Junior Faculty Creative Arts, Ad Hoc, New Faculty Start-Up, Reprint/Publication Support, Travel Support for External Funding for faculty, International Travel Support, as well as Graduate Creative Arts, Graduate Research, Undergraduate Creative Arts, Undergraduate Research, and Travel Support for Professional Meetings for students.

2009-10 Program Participation

The ASPiRE Internal Grants program processed 200 proposals and awarded \$181,118 to support 166 projects. The total number of proposals submitted in 2009-10 decreased 15% from 2008-09, and proposals funded in 2009-10 decreased 7% from those funded in 2008-09. Details of the 2009-10 ASPiRE Internal Grants program are summarized in the table, "ASPiRE Internal Grants Program 2009-2010," found on page 12. In addition, descriptions of individual internal awards can be found under their respective College and Department headings.

ASPiRE Internal Grants Program 2009-2010

	Requests Submitted	Proposals Awarded	Award Amount	Increase (Decrease) in Awards ³

Kristi Koriath	Ex-officio, SPO
Sharon Paulson	Educational Psychology
Kristin Perrone-McGovern	Counseling Psychology and Guidance Services

Office of Research Compliance

The Office of Research Compliance (ORC) provides administrative support for three federally mandated compliance committees – the Institutional Review Board (IRB), the Institutional Animal Care and Use Committee (IACUC), and the Institutional Biosafety Committee (IBC). The ORC is also involved with the Radiation Safety Committee (RSC) in an advisory capacity. These committees are responsible for the review of research protocols, policy revisions to maintain compliance with changing federal regulations, annual reports on activities to the appropriate federal agency, and educational programs in the respective areas.

Overview of the Past Year

In the past year, the ORC has grown and adapted to changes in the research compliance arena by increasing the office staff to three positions: Director of Research Compliance, Associate Director of Research Compliance and Research Compliance Administrator. The changes in staffing were necessary to meet the needs of the research community, the needs of the university for an integrated compliance office, and in an effort to maintain a high level of integrity in complying with Federal regulatory requirements. On April 1, 2010, Christopher Mangelli was named the new Director, ORC. On May 28, 2010, staff member Amy Boos left the ORC for pursuits in Florida. Searches for the Associate Director and the new Research Compliance Administrator continue.

In 2010, the ORC also saw the full integration of the Collaborative Institutional Training Initiative (CITI) into the training regimen for all researchers. As of January 1, 2010 all newly submitted IRB research protocols require the principal investigator (PI), research staff and student researchers complete the CITI training before they can submit and receive approval for a research project. This same requirement went into effect on June 1, 2010 for IACUC researchers.

Review Boards

The Institutional Review Board (IRB)

The IRB is charged with the protection of individuals participating as human subjects in research.

Between July 1, 2009 and June 30, 2010, the IRB reviewed and approved:

- 499 protocols:
 - 155 new protocol submissions
 - 344 revisions, modifications and continuing reviews
- 805 total submissions to IRBNet, the service provider for protocol submission and review, covering all review types and actions
- 58 protocols were officially closed out
- 10 protocols were officially withdrawn from consideration

News and Updates:

- As of June 30, 2010, Lenny Kaminsky officially retired as Chair of the IRB after many years of service.
- Bryan Byers assumed the Chair position starting July 1, 2010.

Community Member
Nursing
Ball Memorial Hospital

The Institutional Animal Care and Use Committee (IACUC)

The IACUC ensures the humane treatment of animals used in research.

Between July 1, 2009 and June 30, 2010, the IACUC reviewed and approved:

- 56 protocols:
 - 5 new protocols
 - 51 revisions, modifications and continuing reviews (progress reports)
- 102 total submissions to IRBNet covering all review types and actions
- 1 protocol was officially closed out
- 1 protocol was officially withdrawn from consideration

News and updates:

- The IACUC regrets the recent loss of the Board's long standing Attending Veterinarian and friend, Pat Riggins.
- The search for a new Attending Vet has begun, with the Alternate Vet, Dr. Beth Breitweiser, acted as the Interim Attending Vet.

-----------------------	--------------------------------

The Institutional Biosafety Committee (IBC)

The IBC is responsible for the review of all research involving recombinant DNA molecules or the use of infectious agents.

Between July 1, 2009 and June 30, 2010, the IBC reviewed and approved 3 protocol submissions:

- 3 revisions, modifications and continuing reviews
- 14 total submissions to IRBNet covering all reviews types and actions

Intellectual Property

The 2010 fiscal year included important developments in the areas of commercialization and technology transfer that saw the formation of two new spin-off companies from university intellectual property (IP). Work was also completed on the organization structure that will facilitate the commercialization needs of Ball State University. Adopted from a proven model, Ball State has formed the Ball State Innovation Corporation (BSIC), a not-for-profit institution. BSIC's mission is to foster and facilitate the process of innovation to enhance the regional economy. This mission encompasses the commercialization of inventions and other innovations derived from research within the University. BSIC and its affiliates, Innovation Management Services, Inc. (a for-profit corporation) and the Ball State Holdings LLC, are fully operational.

BSIC and Innovation Management Services (IMS) operate from offices located in the Innovation Connector, a state-of-the-art incubation center located near the university. IMS provides management services to BSIC, Ball State Holdings and other BSIC-related entities, including newly formed spin-off companies. Ball State Holdings (BSH) became fully operational in Spring 2010 and serves to make loans/equity investments in commercialization ventures. To date, BSH has raised \$100,000 in seed capital to assist company start-ups and is seeking to raise additional funds to meet future start-up needs.

During FY2010, the Office of Technology Transfer received 14 intellectual property disclosures representing IP from emerging media, film, digital intermedia arts, and web applications for use in multi-touch and mobile technology. Licensing revenue for FY2010 generated \$72,000. This is down from the \$147,000 generated in FY2009, but approximately the same as FY2008. The decline was attributed to decreases in revenue from two staple products from the preceding year. Royalty revenue for the upcoming year is projected to be slightly above that generated in FY2009.

In FY2010, 2 provisional patents were re-filed involving digital signage and web-based media production, giving additional time to further develop the products and seek market opportunities. BSIC is also actively pursuing marketing opportunities related to several of its existing patents, including a device for measuring thermal expansion and another relating to building construction - an alignment device for securing piping and conduit during the construction of a building structure.

Ball State saw the creation of two new start-up companies, Frog Baby Apps LLC and Toad Baby Apps LLC. These companies will market mobile applications developed from the Ball State's Digital Corps and other departments within BSU. Other potential spin-offs being analyzed for the upcoming year are from the Institute for Digital Entertainment and Education (IDEE), Institute for Digital Intermedia Arts (IDIA), Institute for Digital Fabrication (IDF), as well as other areas.

In summary, expectations for technology transfer and commercialization for FY2011 point to a year of growth, both in terms of revenue generation and new companies formed. There are significant challenges ahead in developing BSIC's commercial potential from the university's intellectual property, and with areas such as emerging media leading the way to new commercial endeavors, Ball State is in an excellent position to leverage these opportunities.

Funding Profiles

Projects with multiple investigators are listed in the departments of the Principal Investigator (PI), as well as in the department of each Co-Investigator (Co-PI).

In cases where the PIs are from different departments within the same college, an asterisk (*) will appear after the name of the Co-PI.

When the PIs are from different colleges, a double asterisk (**) will appear after the name of the Co-PI.

PLEASE NOTE COLLEGE TOTALS: Funded awards on which there is Co-PI participation, that award is referenced in both PI and Co-PI departments. However, official college and departmental totals include only the lead investigator.
