

Ball State University

| MODULE | Summary | | | | | | | | | | | | | | | | | | | |
|-------------|--|---------------------|---------------------|---------------------|-----------------------------------|---------------------|---------------------|---------------------|-----------------------------------|---------------------|---------------------|---|---|--------------------------|------------------------------------|--|--------------------------------|---------------------|---------------------|-----------------------------------|
| WORKSHEET | AUCPCC Reporting | | | | | | | | | | | | | | | | | | | |
| | NOTE: Grey columns indicate an ACUPCC reporting category that the Campus Carbon Calculator either does not use or defines differently. You may simply consider them placeholders, or you may use them to enter your data as you gather information for your report. For more information on ACUPCC definitions of data categories, reference the ACUPCC Implementation Guide . | | | | | | | | | | | | | | | | | | | |
| UNIVERSITY | Ball State University | | | | | | | | | | | | | | | | | | | |
