

COLORADO COLLEGE

JILL TIEFENTHALER
PRESIDENT

July 15, 2014

STARS[®] Steering Committee
Association for the Advancement of Sustainability in Higher Education
213½ North Limestone
Lexington, KY 40507

Dear STARS[®] Steering Committee:

On behalf of Colorado College, I am pleased to present the results of the 2013-14 Sustainability Tracking, Assessment, and Rating System.

Colorado College's participation and rating in STARS[®] provides an excellent opportunity to guide our efforts across campus to address sustainability issues in concert with other college initiatives. The results from this assessment are the result of the work of many people across campus, and serve as a baseline for our efforts moving forward. Collection of the data for this rating has helped to foster collaboration between departments across the college and will continue to drive progress into the future.

Thank you for your work in fostering awareness and improvement across sustainability metrics at colleges and universities in a measureable way. We look forward to our future work together.

Best regards,

Jill Tiefenthaler
