AASHE Reviewers:

My name is Dr. Brian Barnes, and I am a Senior Lecturer in the Philosophy Department at The University of Louisville, as well as a member of our Sustainability Program's leadership. Dr. Eric Dodge at Hanover College asked me to formally review Hanover's first STARS submission. I have completed this review.

I have reviewed this submission according to Exemplary Practices provided by AASHE for STARS reporting. I have reflected upon the principles contained in the Data Accuracy document, along with suggestions and best practices from The Reporting Tool to complete my review, which I believe to be accurate and reflective of the best intentions for fair and accurate reporting on the part of Hanover College's sustainability leadership.

Finally, I have consulted with colleagues familiar with both the STARS submission process and the formal review conducted by AASHE and their representatives. Their experience and familiarity with best practices for the STARS report has only enhanced Hanover's report.

Please reach out to me with any questions or concerns.

Sincerely —

Brian
