Dear Sirs:

This letter accompanies the submittal by Valencia College to the Sustainability Tracking, Assessment & Rating System™(STARS). I attest that this information is accurate to the best of my knowledge.

Valencia College, a two-year college with several 4-year degrees, has a long commitment to Sustainability. We are working to systematically incorporate sustainable practices and decision processes, throughout both operations and the academic curriculum, and to serve as a catalyst for awareness and education throughout the College community.

We have appreciated the opportunity to measure, track, and improve the sustainability performance of our organization, utilizing tools provided by AASHE and AASHE's STARS.

We look forward to continued improvement in our sustainability performance, as we strive to become good stewards of our environmental resources and to prepare our students to become the best stewards of our environment that they can be.

Thank you for this opportunity to participate.

Sincerely,

Sanford C. Shugart, Ph.D.
