STARS Steering Committee
Association for the Advancement of Sustainability in Higher Education
213 ½ North Limestone
Lexington, KY 40507

Greetings:

Florida Gulf Coast University Parking Services is committed to promoting University sustainability initiatives. In order to promote the use of low emitting and fuel efficient vehicles and to limit the environmental impacts from commuter automobile use, FGCU offers a discount and preferred parking for low emitting and fuel efficient vehicles. The preferred parking spaces are restricted for use by qualifying vehicles that have been registered with Parking Services and issued a LEED parking decal.

Sincerely,

Chief Steven C. Moore

Florida Gulf Coast University Police Dept.
