USA

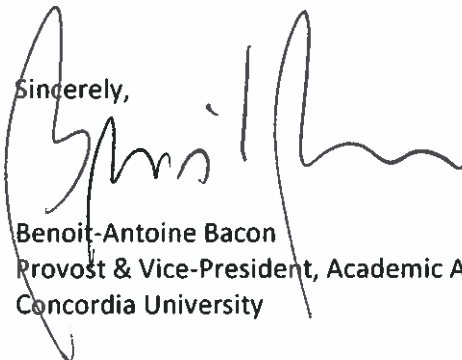

To whom it may concern,

Please accept this letter as an affirmation of the innovative aspect of Concordia University's Sustainable Curriculum Project, a 3-year initiative jointly funded by the student group Sustainable Action Fund (SAF) and the Office of the Provost and Vice-President, Academic Affairs.

The Sustainable Curriculum Project, a true partnership of students, faculty and staff, created opportunities for both undergraduate and graduate students to become involved in curricular research and planning, as associates or research assistants. It also provided directions and tools to significantly increase the growth of sustainability focused courses, programs and initiatives across the University.

The Sustainable Curriculum Project also organized the INTEGRATED symposium on teaching and learning environmental, social and economic sustainability. It was designed to highlight the excellent work and research of undergraduate students at Concordia and beyond.

Sincerely,

Benoit-Antoine Bacon
Provost & Vice-President, Academic Affairs
Concordia University
