Philadelphia, PA 19103
USA

Dear Colleagues,

On behalf of Concordia University, I am pleased to announce that based on our recent completion of the Sustainability Tracking Assessment and Rating System (STARS), our institution is eligible to receive a Gold rating from your Association. The information underlying the assessment accurately reflects our sustainability practices and performance.

The data collection process for STARS was a great opportunity for cross-sector collaboration. At Concordia, we are committed to a transparent, multi-stakeholder process and an innovative sustainability program that is in line with our strategic priorities. STARS has been an effective tool for analyzing the sustainability aspects of the university and for identifying areas where we could further develop.

We appreciate the opportunity to share ideas with the AASHE community and be a part of the STARS initiative.

Yours sincerely,
