

Campus Policy:

- President's Sustainability Steering Committee adopted a Sustainability Master Plan in 2016
- UT Staff Council has a Sustainability Subcommittee

What You Can Do:

- **Conserve:** switch lights and computers off
- **Recycle:** think before adding to the landfill
- **Reuse:** get coffee and drinks in today's free cup
- **Join:** participate in Green Offices or Green Labs
- **Learn More:** sustainability.utexas.edu

Talking points

- UT has historic interest in sustainability: the university's power plant – now one of the most efficient in the country – was developed from the 1930s to make certain the campus was reliably powered by natural gas.
- Now, with millions of square feet of new green buildings, the restoration of Waller Creek, and other efforts, UT is making huge strides toward sustainability.
- Now, there is new momentum
