Hispanic-Serving Institutions (HSIs): 2018-19

The Hispanic-Serving Institutions (HSIs) are a subset of institutions that serve a large percentage of Latino students. This report provides a list of these institutions and details on their capacity-building efforts.

Summary of the 2018-19 List:
 This report lists the 2018-19 list of institutions that serve a large percentage of Latino students. The classification of Hispanic-Serving Institutions (HSIs) formally recognized these institutions for capacity-building and other support.

HSIs are defined in federal law as accredited and program-specific public or private nonprofit institutions of higher education with 25 percent or more total undergraduate Hispanic students equivalent (FTE) student enrollment.

In 2018-19, 328 institutions met the enrollment definition of HSIs. HSIs represent just over 17 percent of institutions nationwide and enroll 27 percent of Latino undergraduates.

The list of institutions identified as HSIs in this analysis is not intended to determine eligibility for any specific program; rather, the list is meant to assist in identifying and contacting the institutions that meet the basic legislative definition of Hispanic-serving institutions. The following list of HSIs was created using data from the Integrated Postsecondary Education Data System (IPEDS).
