

San Pedro Garza Garcia, Nuevo León, November 12, 2021

Meghan Fay Zahniser  
Executive Director  
Association for the Advancement of Sustainability in Higher Education

Dear Executive Director Zahniser:

On behalf of Universidad de Monterrey (UDEM), I submit the documentation of our most recent report for AASHE's Sustainability Tracking, Assessment, and Rating System (STARS).

We are delighted to share that in 2017, we obtained a STARS Silver Level in the evaluation, and we honor our institutional commitment to sustainability, striving to advance in STARS.

Sustainability in Higher Education will continue to be one of our priorities in the upcoming years. We think of it as an interdisciplinary challenge; therefore, throughout this process, UDEM has actively sought feedback from our campus community and task force and taken strategic actions to impulse its cultural awareness by continually exploring new ideas to support and promote sustainability initiatives.

We are deeply committed to transforming higher education's role to reinforce sustainability by incorporating practices and creating synergies that engage students and the community in these efforts.

The process of research and recollection included in our STARS submission provides us with valuable and timely information within our performance to help guide our planning and development for years to come.

Sincerely,

Mario Páez González  
President
