

THIS EXCURSION OFFERS A WAY FOR SCIENCE MAJORS TO:

01

Learn the scientific facts about climate change by participating in the workshop "Climate Change: Facts, Forces and Future"

02

Experience the scale of the changing climate and its impacts by traveling to natural sites in Idaho and Washington States

03

Interact with faculty and research scientists by participating in an active NSF funded research project

Join Bryant Faculty and Research Scientists for a Field Trip to the Pacific Northwest!

As NSF Student Scholars!

Explore the Facts, Forces and Future of Global Climate Change!

All While Traveling Idaho and Washington States, for Workshop and Exploration!

Summer Climate Change Expedition

July 28 – August 4, 2019
Idaho and Washington

Organizers:

Sponsor:

A deposit of \$300 registration fee to cover management and some meals is due on the day of acceptance to hold your place. Science majors can apply for departmental supports to waive the registration fee upon successful completion of the program. Ten (10) spots are available to all Bryant students; science majors will be given the priority.

WHAT EXPENSES ARE COVERED

Airfare Round Trip	Hotel Accommodations
Local Transport	All sponsored by the program

Application is due 4:00pm February 17 to John Forrest at jforrest1@bryant.edu
