To whom it may concern:

I am pleased to submit my affirmation that the information about Boston University submitted through AASHE's Sustainability, Tracking, Assessment, and Rating System (STARS) is complete and accurate. This submission comprises our metrics for the fiscal years 2021 and 2022.

I will note as a point of pride that in January we opened the Center for Computing & Data Sciences at Boston University. At 345,000 square feet, it is the largest fossil fuel free, carbon neutral building in Boston.
