Cincinnati, OH 45221-0186

Dear Mr. Porter:

It is with great pleasure that I write to affirm the review and verification of the University of Cincinnati's 2020 STARS 2.2 submission. Based on the provision of supporting data and documentation by staff at the University of Cincinnati (UC) to the Unlimited Carbon Assistance Network (UCAN) during late 2019 and 2020, I am confident that UC will achieve a well-earned "Gold" ranking under version 2.2 of AASHE's Sustainability Tracking and Rating System (STARS).

I have reviewed UC's report, and the supporting information provided, and am satisfied that the reporting criteria for each credit has been met as completely and accurately as possible, and all identified inconsistencies and errors have been successfully addressed. This is represented in the data included in the accompanying "Review Template," provided by AASHE and completed collaboratively by staff from UC and U-CAN.

I am happy, of course, to answer any further questions or to be a resource as you progress through the final AASHE STARS submission and review process; please don't hesitate to reach out to me at (603-475-3587) or using the contact information provided below. In the meantime, I wish you sincere congratulations on your sustainability accomplishments to date, as reflected in this submission; it demonstrates that UC has much to be proud of in terms of its sustainability leadership. I wish you the best in your continued efforts!

Sincerely,

A handwritten signature in blue ink that reads "Jennifer R Andrews".
