STARS Steering Committee
Association for the Advancement of Sustainability in Higher Education
213 ½ North Limestone
Lexington, KY 40507

Dear STARS Steering Committee:

Lehigh University is committed to institutionalizing sustainability throughout the university. Over the past few decades we created policies and programs that integrate sustainability concepts into teaching and learning, operations, workplace and campus culture. As you review our report, you will find the data reflects our commitment and progress. We embrace our obligation to create a campus that merges environmentally responsible solutions with just and equitable practices.

As Vice President for Finance & Administration of Lehigh University, I am confident our Silver score accurately represents the sustainability efforts and values of Lehigh University.

Sincerely,

A handwritten signature in blue ink, appearing to read "Patricia A. Johnson".

Patricia A. Johnson
Vice President for Finance & Administration
