AASHE STARS Steering Committee  
1526 Wynkoop Street, Suite 100  
Denver, CO 80202

Dear STARS Steering Committee:

On behalf of the University of Nebraska at Omaha (UNO), I am pleased to provide this Sustainability Tracking, Assessment & Rating System (STARS) report. I affirm that it is accurate to the best of my knowledge.

Sustainability was identified as one of UNO's five campus priorities when charting a clear vision for 2020. STARS has been a valuable assessment tool for benchmarking past and current efforts and will be helpful as we establish and track our future sustainability goals.

The establishment of a Center for Urban Sustainability demonstrates our commitment to be a leader in addressing complex real-world urban issues of sustainability through education, research, and our community. We are proud to be Nebraska's first AASHE campus and look forward to helping our stakeholders strive towards a more sustainable future.

Sincerely,

John E. Christensen  
Chancellor
