Subject: California State University, San Bernardino's STARS Submission

Dear STARS Committee Members,

On behalf of California State University, San Bernardino I am pleased to submit the results of the Sustainability Tracking, Assessment and Rating System (STARS) report. This submission reaffirms the university's long-standing commitment to our community and creating a more sustainable and resilient Inland Empire region in Southern California.

This comprehensive report was prepared through the collaborative efforts of the entire campus community, with active participation from students, faculty and staff. This work highlights the university's core values of innovation, integrity, transparency and sustainability. The STARS assessment has been incorporated into the strategic plan to provide a framework for our continued efforts to improve the resiliency of the campus and to serve as an example to the larger community that we serve.

This report was spearheaded by the Office of Energy and Sustainability. Through my letter, I affirm the data presented to be true and accurate to the best of our abilities. Thank you for allowing us the opportunity to evaluate our efforts and contributions as we work to make a more sustainable and resilient community.

Sincerely,

A handwritten signature in black ink, appearing to read "TDM", is written over a horizontal line.
