STARS 2.1 Food and Beverage Purchasing Inventory

This tool was produced to provide a consistent format for STARS participants to document their expenditures on more sustainable food and beverage products.

1) Conduct an inventory to identify products that qualify as Third Party Verified and/or Local & Community-Based and enter each product in the Inventory tab, below.

2) Record food and beverage expenditures for the reporting period in the Expenditures tab.

3) Report results (Results tab) and upooad this spreadsheet as documentation in the online STARS Reporting Tool.

Products that qualify as Third Party Verified and/or Local & Community-Based

A. Do you have reason to believe a product is sustainably produced or locally grown? Potential reasons include:

B. If the product carries a certification or ecolabel, check the list in the Criteria tab to see if it qualifies as Third Party Verified. If it does, include it below.

C. If the product doesn't qualify as Third Party Verified, but it comes from a regional distributor or a local farm or business, use the table in the Criteria tab to determine if it qualifies as Local & Community-Based.

Product vendor	Product label/brand	Product description	Third Party Verified?	Standard(s) met (e.g. Certified Organic, Fairtrade certified)	Local & Community-Based?	Information justifying inclusion of the product (i.e. ownership, size, distance, production methods)

Report the figures below in the online STARS Reporting Tool:

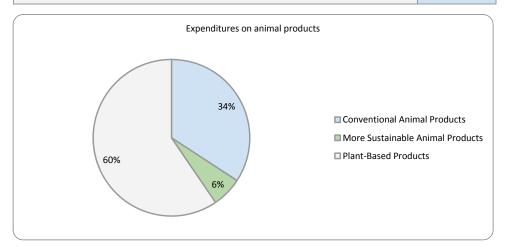

Percentage of total dining services food and beverage expenditures on products that are third party verified under one or more recognized food and beverage sustainability standards or Local & Community Based (0-100)

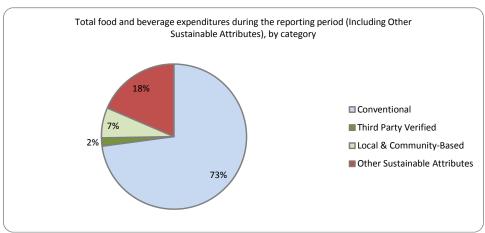

8.56

Percentage of total dining services food and beverage expenditures on conventional animal products (0-100)

34.21

Please note that an expenditure may only qualify in one category. An expenditure on a product that is both Third Party Verified and Local & Community-Based must be counted in the Third Party Verified category.

1) Does the product qualify as Third Party Verified?

The product is sustainably and/or ethically produced as determined by one or more recognized food and beverage sustainability standards.

To qualify, a product must meet (or carry the label of) at least one of the following standards:

Global Standards (applicable to all institutions)

Biodynamic Certified (Demeter)

Certified Bird Friendly (coffee)

Milk with Dignity (Migrant Justice)

PCO Certified 100% Grassfed

Protected Harvest Certified

Salmon Safe Certified

Transitional Organic (USDA)

Additional certifications recognized in the Real Food Guide as Green Light or Yellow Light

2) If not, does it qualify as Local & Community Based?

This category provides a path for campus farms and gardens and small and mid-sized producers to be recognized in the absence of third party certification.

To qualify, an uncertified product must fully meet the following criteria. Intensive Livestock Operations (ILOs and CAFOs) are excluded (see below).

Single-i	ngrea	ien
product	c	

A single ingredient product must meet ALL of the following criteria:

- A. Ownership. Producer must be a privately or cooperatively owned enterprise. Wild-caught seafood must come from owner-operated boats.
- B. Size. Produce: Individual farms must gross \$5 million (US/Canadian) per year or less. Meat, poultry, eggs, dairy, fish/seafood, grocery/staple items (e.g., grains): Producing company must gross \$50 million (US/Canadian) per year or less.
- **C. Distance.** All production, processing, and distribution facilities must be within a 250 mile (400 kilometre) radius of the institution. This radius is extended to 500 miles (800 kilometres) for meat (i.e., beef, lamb, pork, game).

Single-ingredient products aggregated from multiple sources

At least three-quarters (75 percent) of the product (by volume) must meet the Ownership, Size, and Distance criteria outlined above.

Multi-ingredient products (e.g., baked goods)

(e.g., milk)

Producing company must meet ALL the following criteria:

- **A. Ownership.** Producing company must be a privately or cooperatively owned enterprise.
- **B. Size**. Producing company must gross \$50 million (US/Canadian) per year or less.
- **C. Distance.** All processing and distribution facilities must be within a 250 mile (400 kilometre) radius of the institution.

AND

At least half (50 percent) of the ingredients must come from farms meeting ALL the following criteria:

- **A. Ownership.** Producing company must be a privately or cooperatively owned enterprise.
- B. Size. Produce: Individual farms must gross \$5 million (US/Canadian) per year or less. All other ingredients: Producing company must gross \$50 million (US/Canadian) per year or less.
- **C. Distance.** All production facilities must be within a 250 mile (400 kilometre) radius of the institution.

excluded from this category. Because of the prevalence of industrial livestock production in many
