AASHE STARS Letter of Affirmation Pre-Submission Review

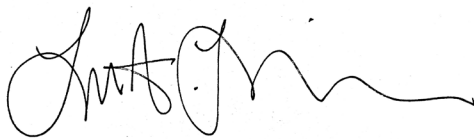

To Whom It May Concern,

In February 2023, I connected with Noah Upchurch, Sustainability Specialist for the Catawba College Center for the Environment, during the AASHE STARS “A Deep Dive into STARS Data Quality” workshop held on February 9<sup>th</sup>, 2023. Noah informed me of Catawba’s desire to have their STARS submission reviewed by an external review to satisfy STARS credit PA-4, at which point I offered to conduct an internal review of Catawba’s STARS submission by utilizing the STARS Review Template.

After performing a thorough first review and providing feedback/recommended revisions, I am confident that the information Catawba’s STARS report is accurate, consistent across credits, and fulfills credit criteria.

Please feel free to contact me at [lisa.noriega@yale.edu](mailto:lisa.noriega@yale.edu) if you have any questions or concerns.

Sincerely,

Lisa Noriega (she/her/hers)
