

# Sustainability

---

**"We are committed to sustainability in our academic programs, physical campus and operations, and university mission by promoting environmental stewardship, social responsibility, and economic viability for current and future generations"**

- *Examples include:*
  - *Institutional and Foundational Sustainability Pillars*
  - *Commitment to Carbon Neutrality*
  - *LEED Certification for all new buildings and renovations*
  - *Geothermal Heat Pump technology*
  - *Single Stream Recycling*
  - *Institute for the Environment and Sustainability (IES)*
  - *Lean Initiatives*
  - *Student Sustainability Council*

# The Lean Initiative

---

*Business strategy, systematic method for eliminating waste within processes*

*Centered on customer and involves the individuals who participate in making change*

*Committed to spreading the Lean methodologies and embedding a habit for continuous improvement*
