

WHITMAN COLLEGE

Office of the President

July 21, 2023

STARS Steering Committee
Association for the Advancement
Of Sustainability in Higher Education
2401 Walnut Street, Suite 102
Philadelphia, PA 19103

Dear STARS Steering Committee:

On behalf of Whitman College, I am pleased to submit the results of our institution's third Sustainability, Tracking, Assessment, and Rating System report. I am confident this submission will represent Whitman's commitment to fostering an environment of social and environmental justice, ambitions for furthering our impact of sustainability programs and education, and our continued dedication to ensuring we become a leader in higher education sustainability.

Whitman is proud to provide our students with a well-rounded education in the liberal arts and instill in them an understanding of how they can positively impact their communities and the environment around them. Using the STARS framework, we are able to identify areas of improvement and collaboration to make us an institutional leader in our region, as well as support meaningful progress across our campus.

We look forward to the progress we will make using the STARS framework and guidance for updating our Campus Sustainability Plan to accurately assess the needs of our students and community. I want to thank all of the staff, faculty, and students who helped provide the data sets and information for this report, and for those who demonstrate Whitman's core values every day.

Dr. Sarah R. Bolton
President, Whitman College

Cc: Sarah Williams, Sustainability Manager
Tony Ichsán, Assistant Vice President of Facilities Services
