

WHITMAN COLLEGE

January 30, 2017

STARS Steering Committee
Association for the Advancement
of Sustainability in Higher Education
2401 Walnut Street, Suite 102
Philadelphia, PA 19103

Dear STARS Steering Committee:

On behalf of Whitman College, I am pleased to submit the results of our institution's 2016 – 2017 Sustainability, Tracking, Assessment, and Ratings System report.

Whitman College is committed to providing a well-rounded liberal arts education through the embodiment of our core values. We recognize the impact our campus community has on the environment, and the leadership role our college plays as an institution of higher learning. With the STARS tool we are able to guide our sustainability efforts across our campus community. The collection of data for this report has highlighted the collaboration present throughout our campus, and the continued dedication our college has to sustainability.

I would like to thank AASHE for their role in the continued advancement of measureable sustainability metrics. With tools such as STARS we are able to foster meaningful progress and highlight the continued leadership role we play in an ever-changing world.

Sincerely,

Kathleen Murray
President
